PRODUCT CODE: PETDOU

Installation guide

LOW VOLTAGE - Do not wire light fitting directly to mains power.
PETRINE PENDANT LIGHT / DOUBLE

Installation guide

DANGER electric shock risk. Installation must be conducted by a licensed electrician.

STAGE 1: INSTALL DRIVER

TCI Mini Jolly 125400
550mA Constant Current
Minimum cut-out hole diameter: 55 mm
Size: 111 x 22 x 52 mm
Plastic case: IP20 rated

1: Select driver location, ideally a remote location that is accessible such as an attic or cupboard. Affix driver to solid surface.

2: Unscrew terminal cover and unclick from sides.

3: Check DIP switches are set to required position - if not, set to pattern as shown above using a small screwdriver.

4: Ensure mains supply is switched off. Connect 120V-240V Load and Neutral supply to the left side of the driver as shown.

5: Terminate earth if present.

6: Option A: While at the framing stage, run a 2x core cable from the SEC output on the driver, to the desired position of the luminaire. Junction the opposite side in a parallel circuit. Each end of the light is powered independently from one driver.

Option B: If the driver must be located behind the luminaire. Connect +/- from LED luminaire to right side of driver in the SEC output. Junction the opposite side in a parallel circuit.

7: (Optional, not supplied) If dimming is required, connect leads for 1-10V or Push Dimmer as illustrated.

8: Reattach terminal cover and screw closed.
Low Voltage - Do not wire light fitting directly to mains power.

Stage 2: Install Fitting

1. Remove all items from box.
2. Install driver as shown on opposite page.
3. Drill <25mm hole in ceiling at desired location of luminaire and locate both +/- power from driver output.
4. Using the Hex key provided, remove M3 brass screws from the brass ceiling canopy.
5. Install white ceiling plate and affix to timber joist behind plasterboard.
6. Adjust cord length to suit.
7. Connect +/- power supply from LED luminaire to TCI Mini Jolly driver.
8. Resecure brass ceiling canopy with M3 brass screws.
9. Wipe down fitting with clean dry cloth.
10. Test fitting.

Ensure gloves are worn when handling natural brass products.
