

# AFGHAN COMPOUND

## Assembly Instructions

Difficulty  
**EASY**

Before starting this kit, make sure you read through all the instructions carefully. Always remember to dry fit parts and sand as needed.

We use two kinds of glue when assembling our kits. Super glue (cyanoacrylate) or PVA glue.

You can repaint or weather our kits easily! The paint we use is a great base primer and will take paint nicely.

If you have any issues during assembly, please contact us and we'll always do our best to help. We pride ourselves on taking care of our customers, so if you need anything at all, we're here!

As part of the laser cutting process, some colors or sheets may have more laser dust/residue than others. This is due to a wide variety of reasons and its 100% normal.

If the smell bothers you, set the kits outside for a day or so. If the residue is getting onto your hands, use some gloves!

Some folks like to wipe the kits down with a very lightly damp rag.

### IMPORTANT SYMBOLS YOU MAY FIND WHILE ASSEMBLING THESE KITS

**ATTENTION:** This is a specifically important step.

**NO GLUE:** When you need to place a part without glue. Working doors are a good example

**USE GLUE:** This one isn't used much, as we assume almost all steps will have glue. But sometimes we use this for additional clarity

**TRIM/SAND:** Sometimes parts need to be slightly sanded, or trimmed in order to get the perfect fit.

**DRY FIT:** Sometimes we'll tell you to test fit items first. While we suggest doing this for ALL steps. Some are more important.

### TOOLS WE SUGGEST YOU HAVE BEFORE GETTING STARTED

**SAND PAPER**

**CUTTERS**

**SMALL FILES**

**SUPER GLUE**

**WHITE GLUE**

**CLAMPS OR PEGS**

THIS KIT IS NOT A TOY - NOT FOR CHILDREN UNDER 15 - CONTAINS SMALL PARTS - PERMISSION TO PRINT THESE FOR PERSONAL USE ONLY THIS KIT IS NOT A TOY - NOT FOR CHILDREN UNDER 15 - CONTAINS SMALL PARTS - PERMISSION TO PRINT THESE FOR PERSONAL USE ONLY

### EXTRA PARTS:

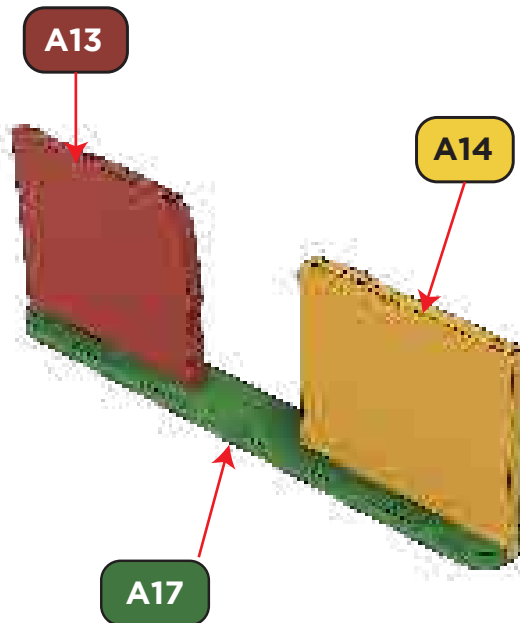

SOMETIMES OUR KITS MAY COME WITH ADDITIONAL PARTS, GREEBLIES OR FREE DETAILS. WE DON'T ALWAYS SHOW THESE PARTS AS PART OF THE INSTRUCTIONS BECAUSE THEY MAY SOMETIMES CHANGE BETWEEN EDITIONS OR MANUFACTURING RUNS.

IF YOU GET TO THE END OF THIS KIT AND THERE ARE PARTS LEFT OVER, SIMPLY DISCARD THEM, OR USE THEM TO KITBASH SOME COOL ADDITIONAL FLAVOR TO YOUR KIT!

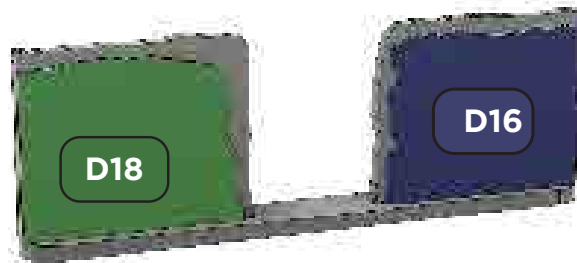

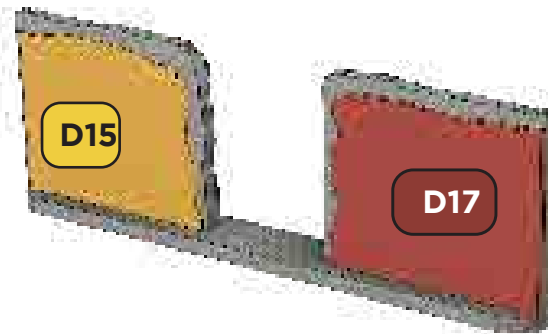

You should also have  
1 Wooden dome

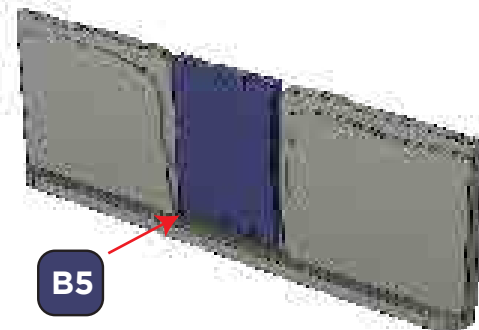

## STEP 1 - Gate

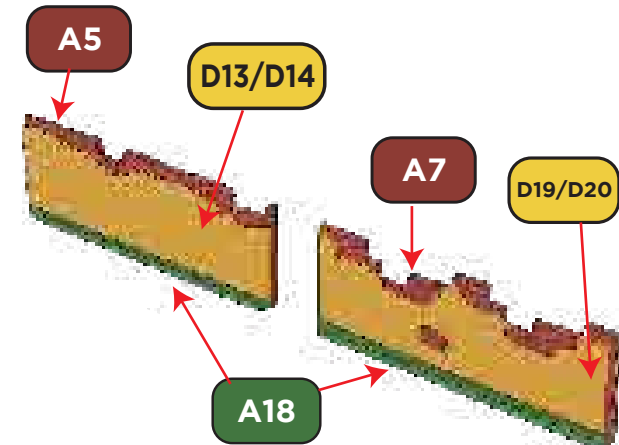

## STEP 2

You will have enough parts to make 2 gates

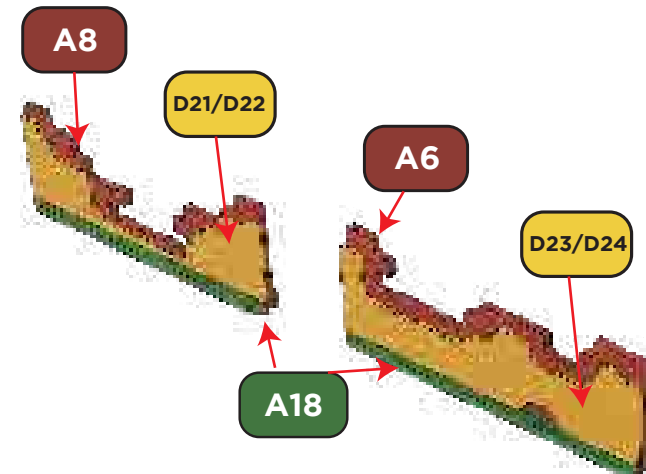

## STEP 3 - Walls

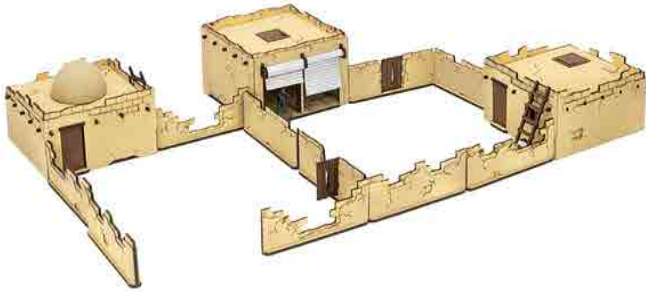

## STEP 4 - Walls

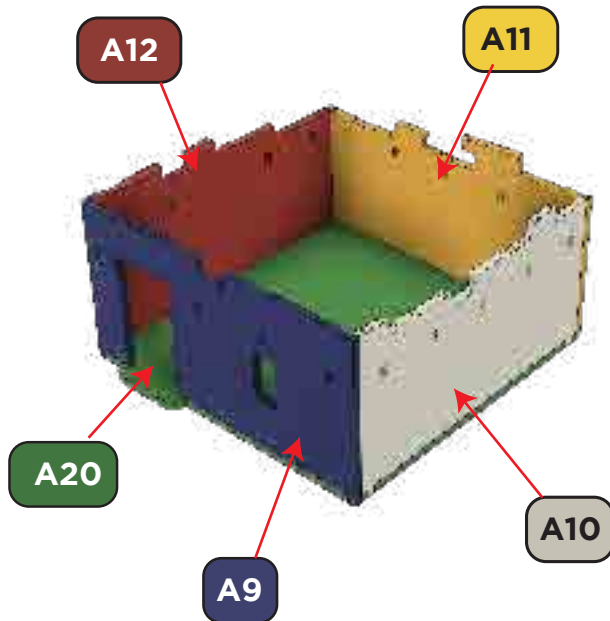

You will have enough parts to make 2 of each wall type

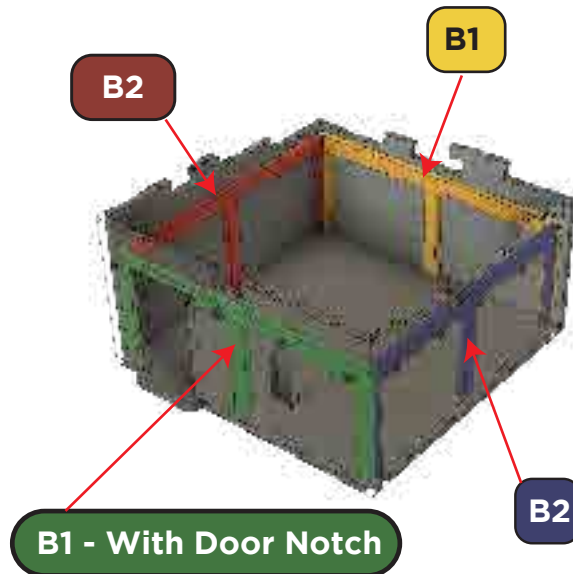

## STEP 5 - Hovel A

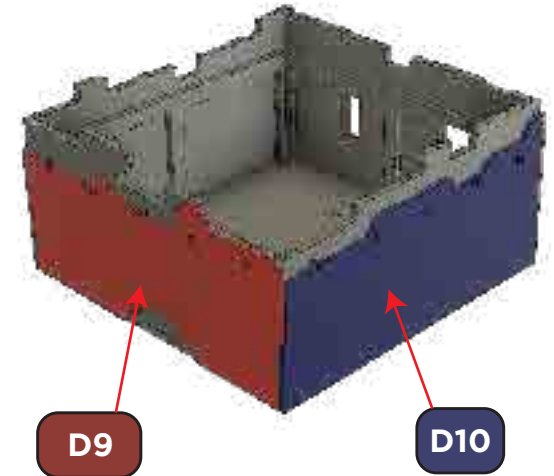

## STEP 6

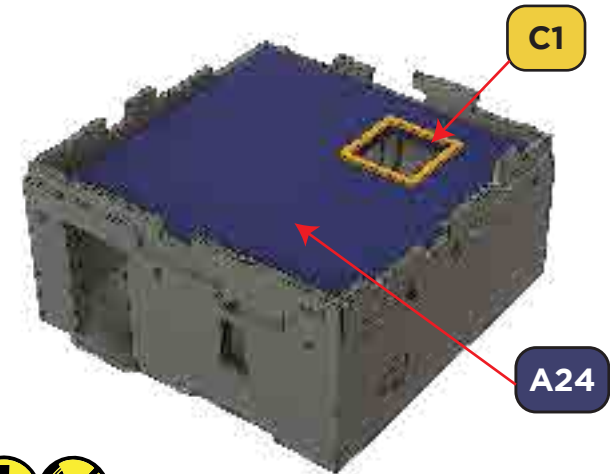

## STEP 7

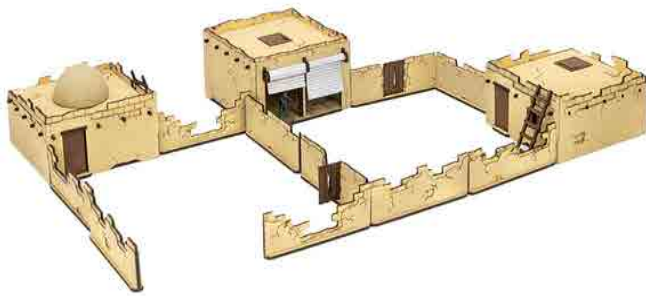

## STEP 8

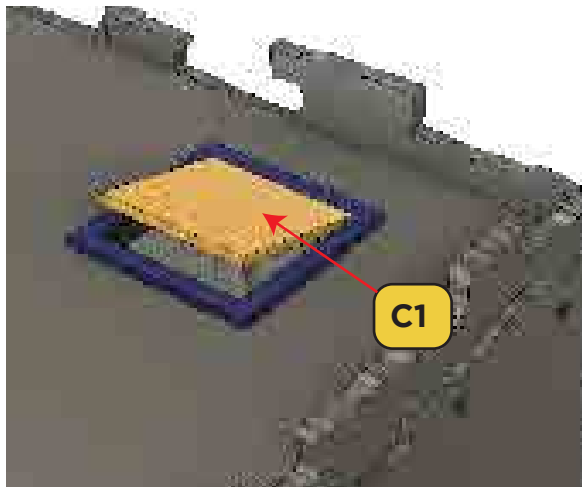

## STEP 9

The roof is designed to lift out for easy gameplay

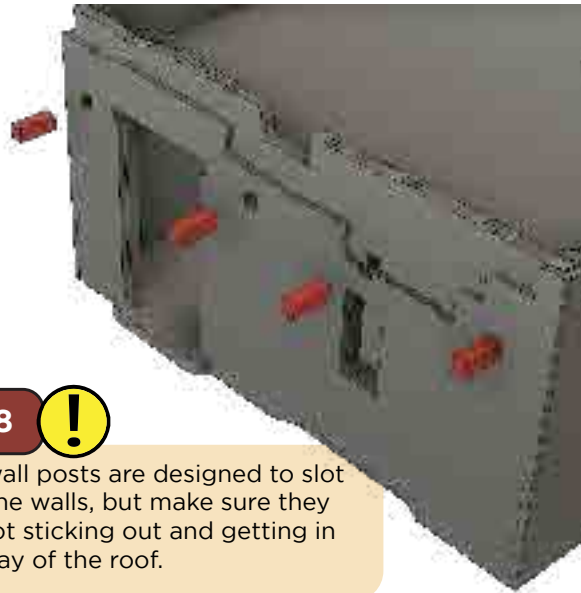

## STEP 10

The roof doors are cut in a way that you can bend the door at an angle

## STEP 11

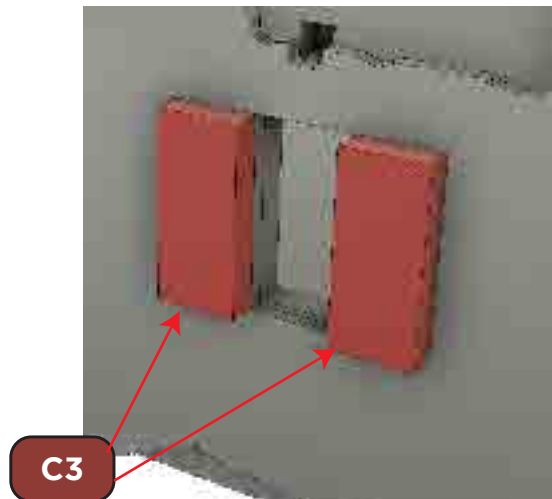

B8

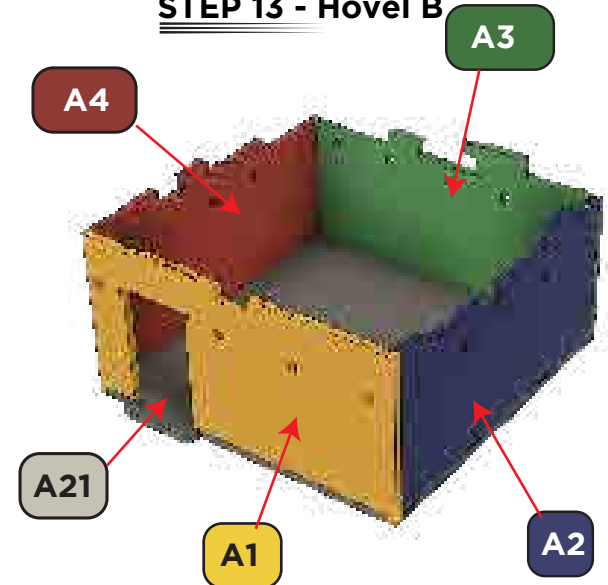

The wall posts are designed to slot into the walls, but make sure they are not sticking out and getting in the way of the roof.

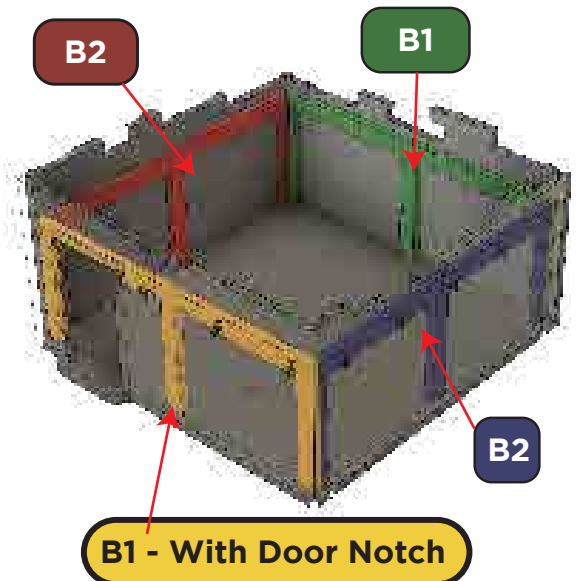

## STEP 12

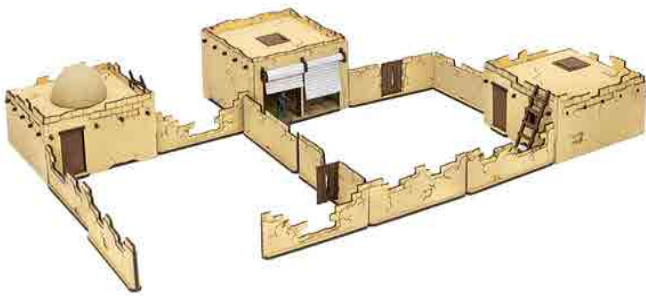

## STEP 13 - Hovel B

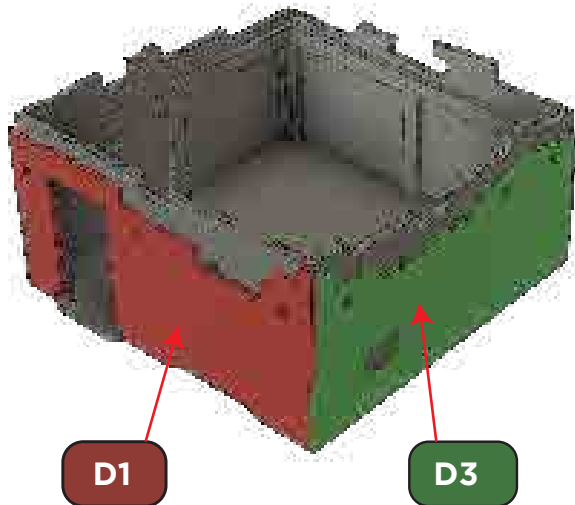

## STEP 14

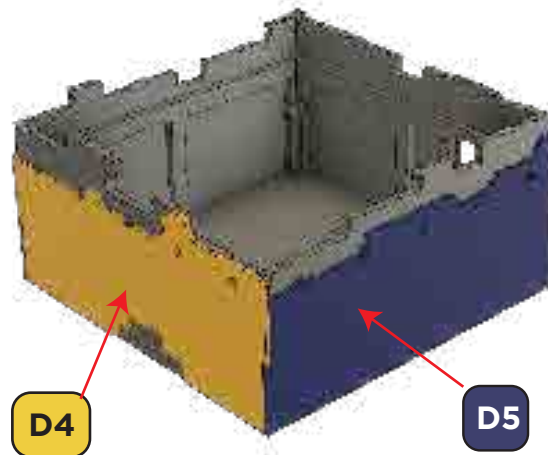

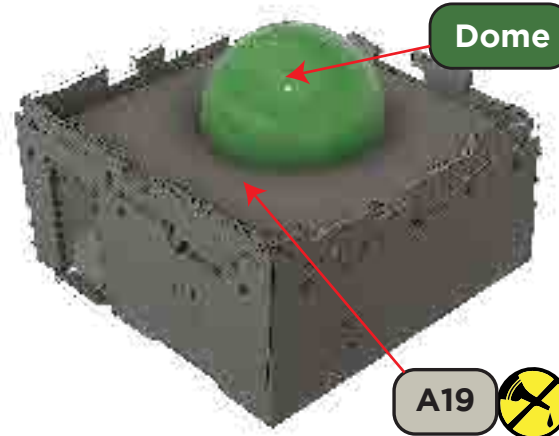

## STEP 15

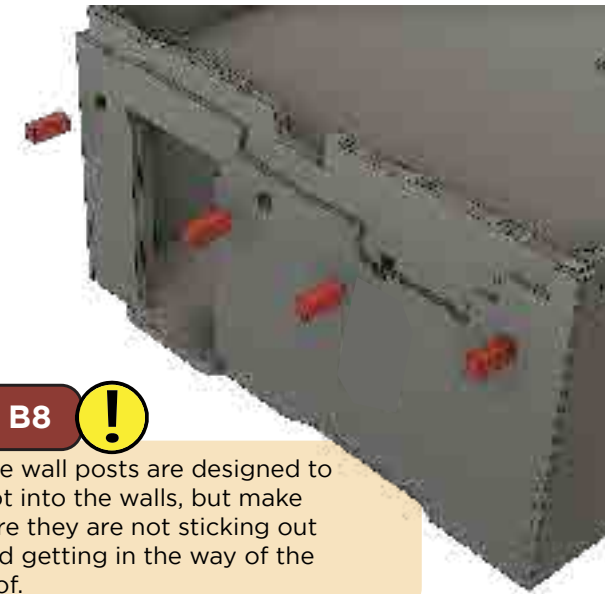

## STEP 16

## STEP 17

## STEP 18

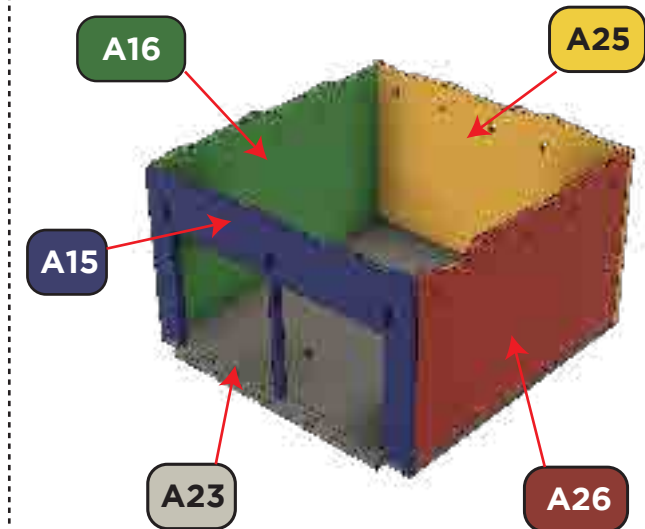

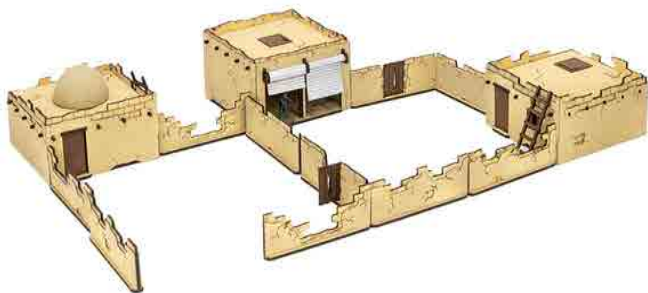

B8

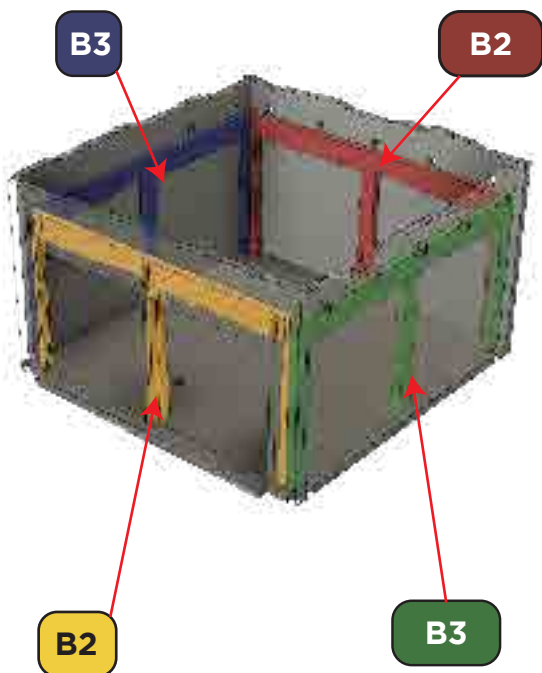

The wall posts are designed to slot into the walls, but make sure they are not sticking out and getting in the way of the roof.

## STEP 19 - Hovel C

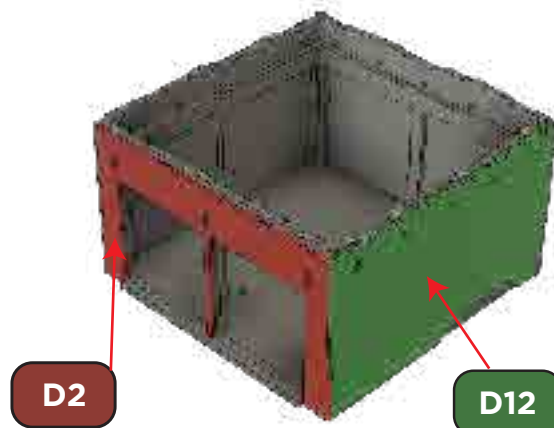

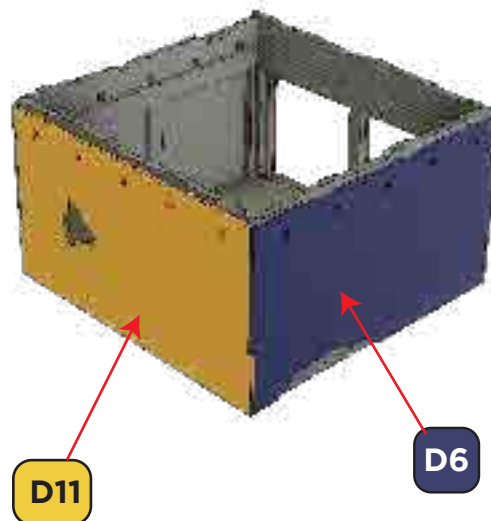

## STEP 20

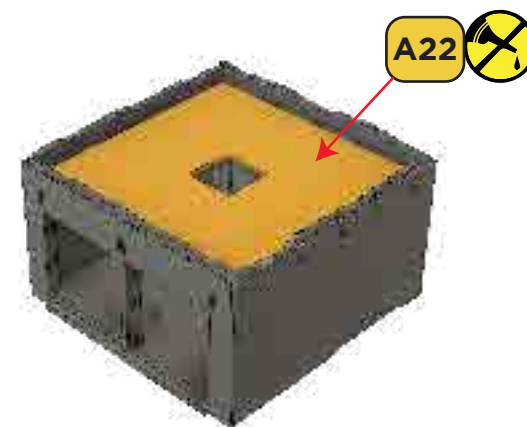

## STEP 21

## STEP 22

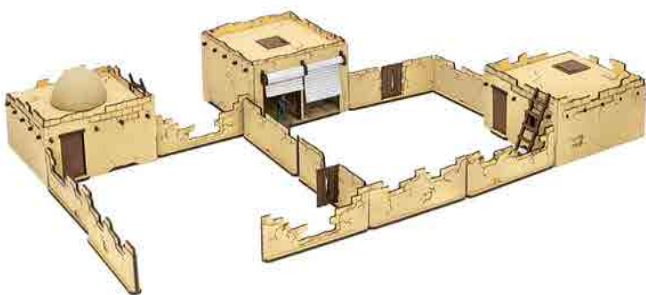

## STEP 23

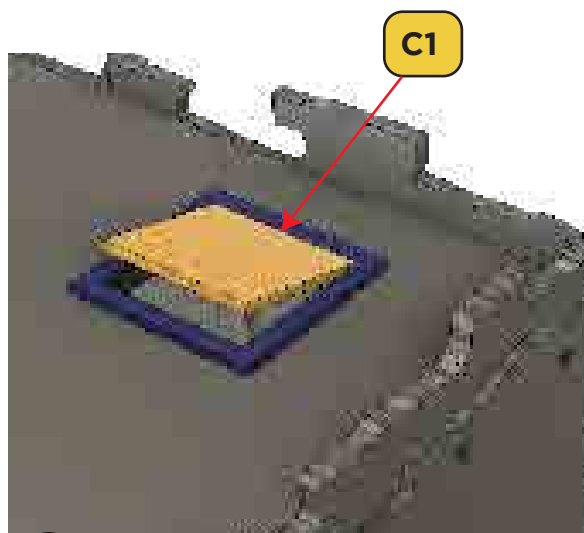

## STEP 24

The wall posts are designed to slot into the walls, but make sure they are not sticking out and getting in the way of the roof.

## STEP 25

The roof doors are cut in a way that you can bend the door at an angle

## STEP 26

The doors on this kit are designed to open and close. Make sure to test fit them before applying glue. Only apply glue along the top hinge parts and then slot them into the holes provided

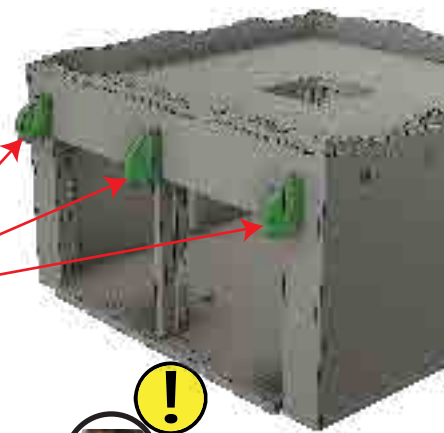

C2

B4

## STEP 27

B6

The roller doors on this kit are designed to be left unattached. This is so you can remove them and still use the building for different (non-modern) games.

Roll the silver card up like this.

Glue them around the bar (part B7)

The bar can slot into the supports
