 x28

Do not place crosstie

 x139

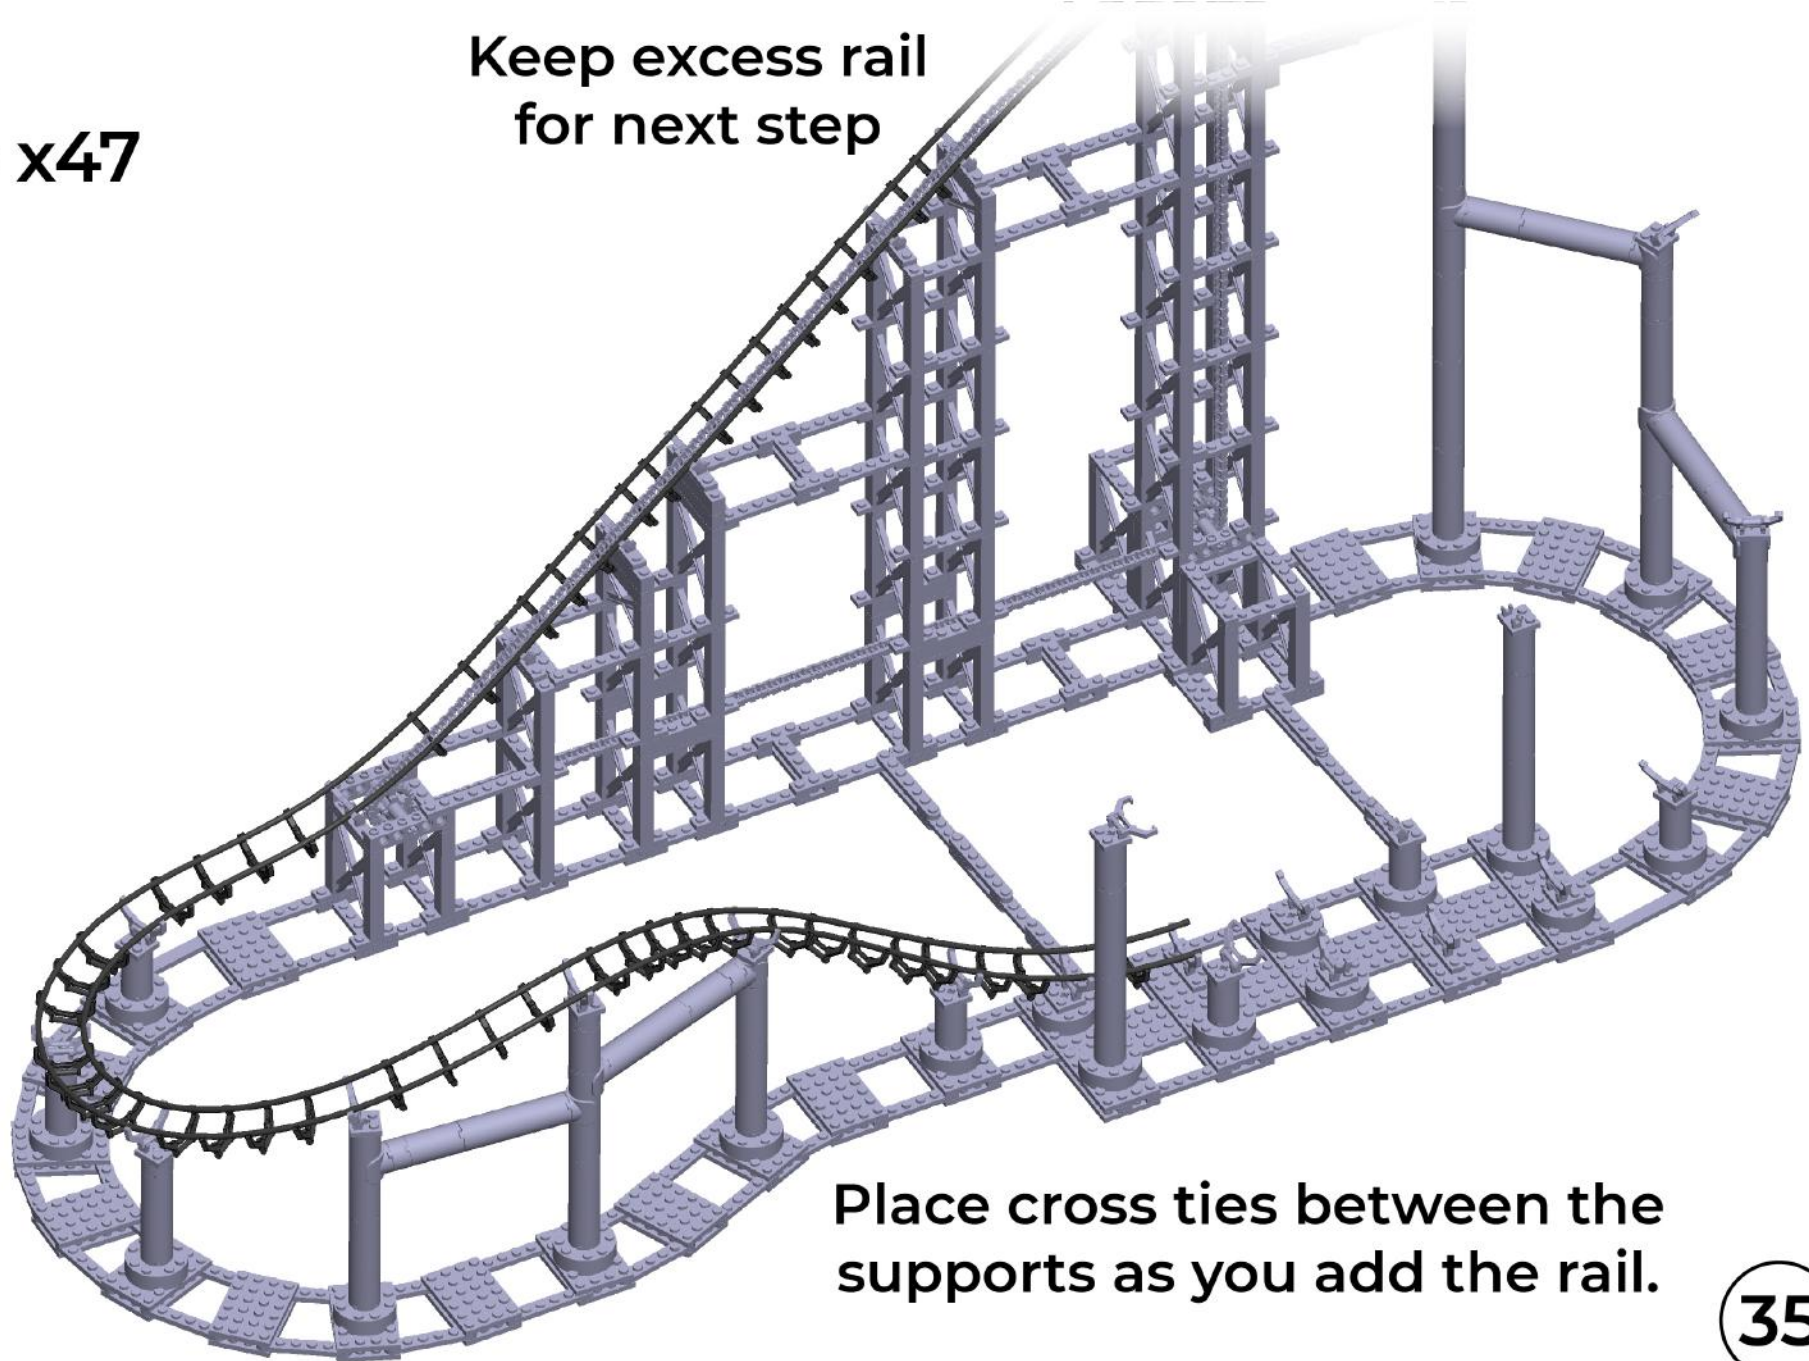

Snap rail to cross ties moving backwards through the layout

 x47

Keep excess rail  
for next step

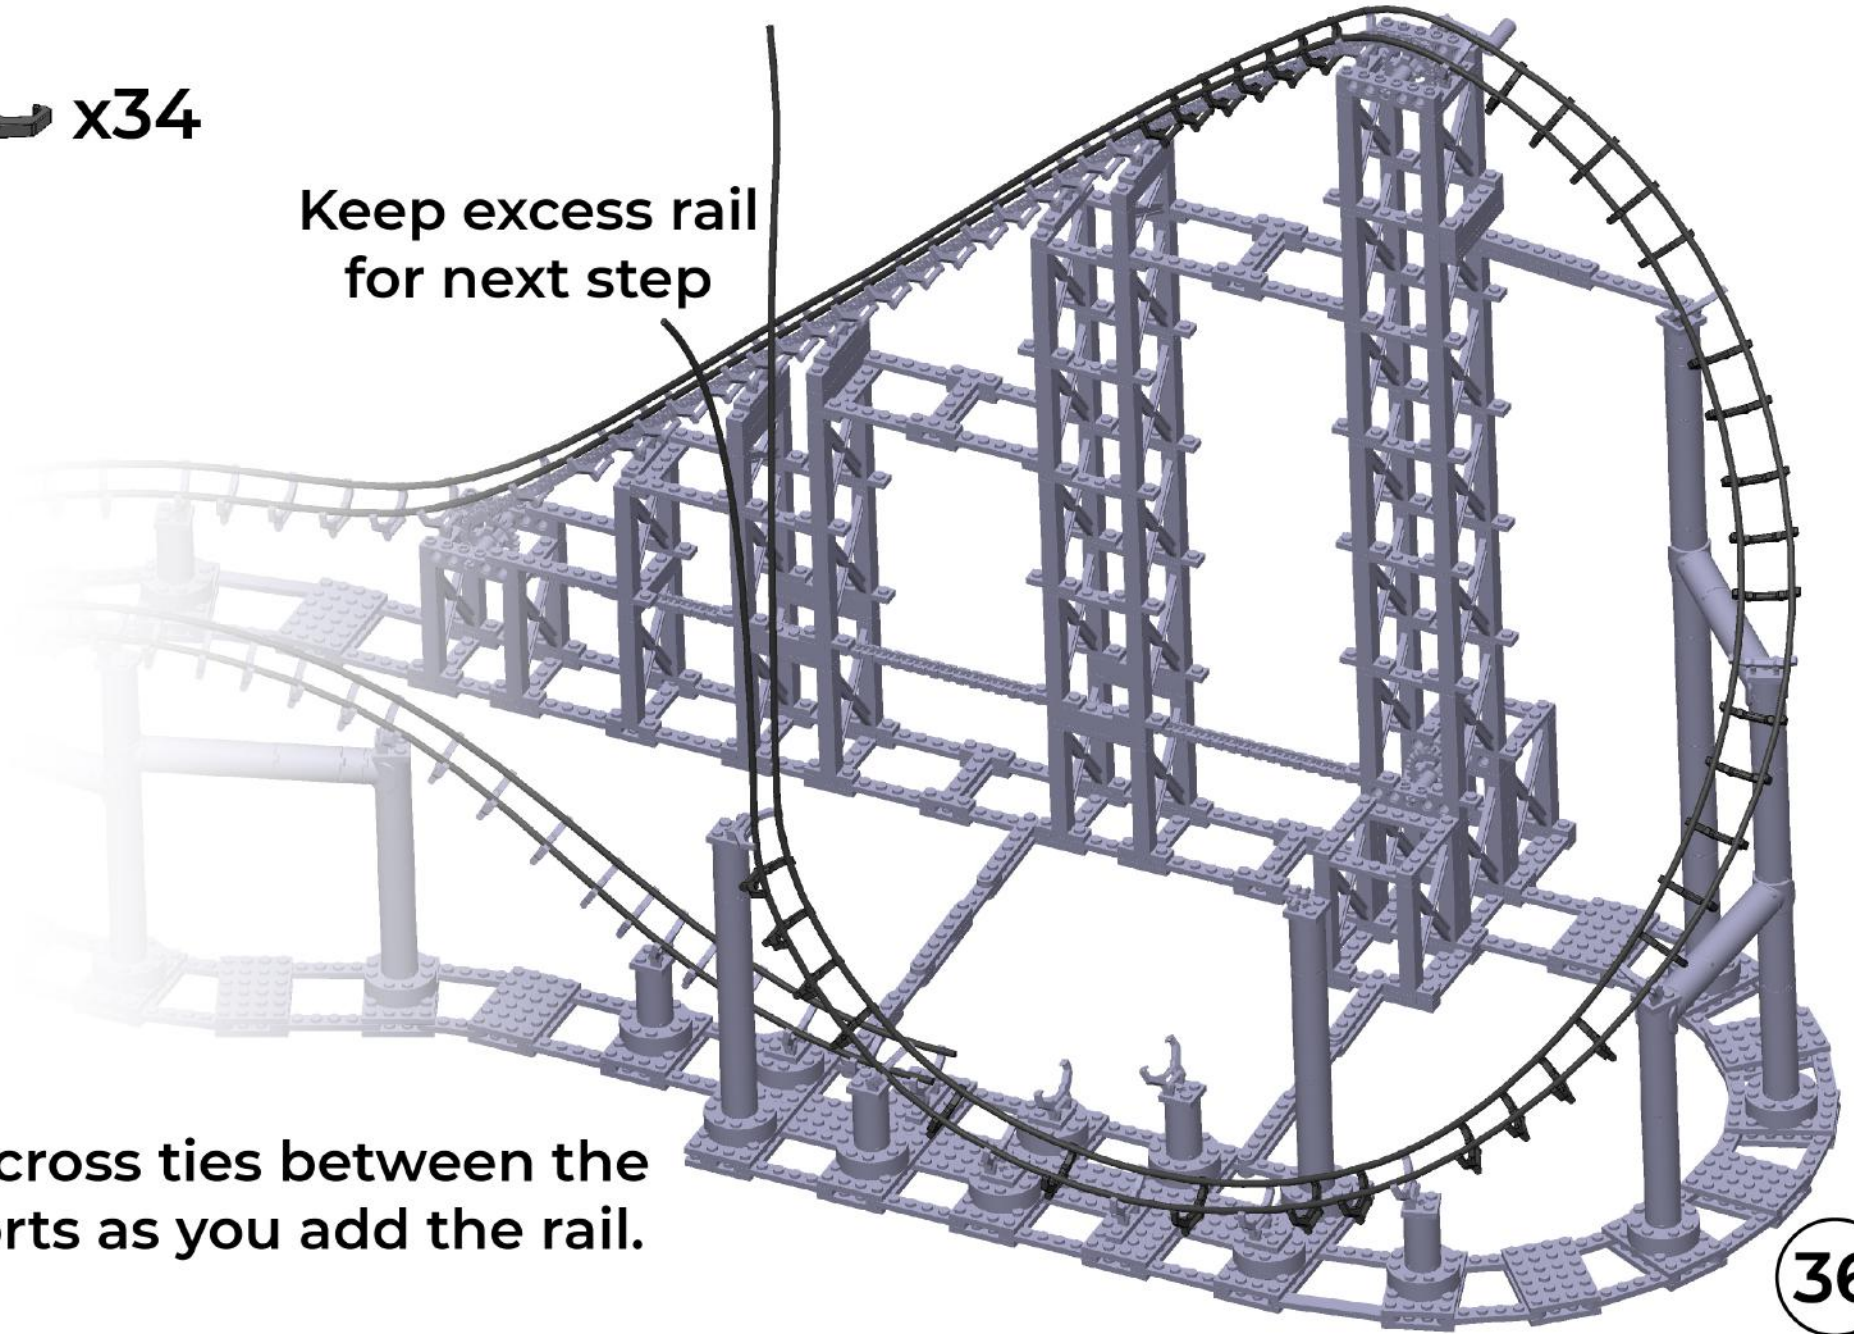

Place cross ties between the  
supports as you add the rail.

 x34

Keep excess rail  
for next step

Place cross ties between the  
supports as you add the rail.

 x21

Keep excess rail  
for next step

14.5"  
37cm

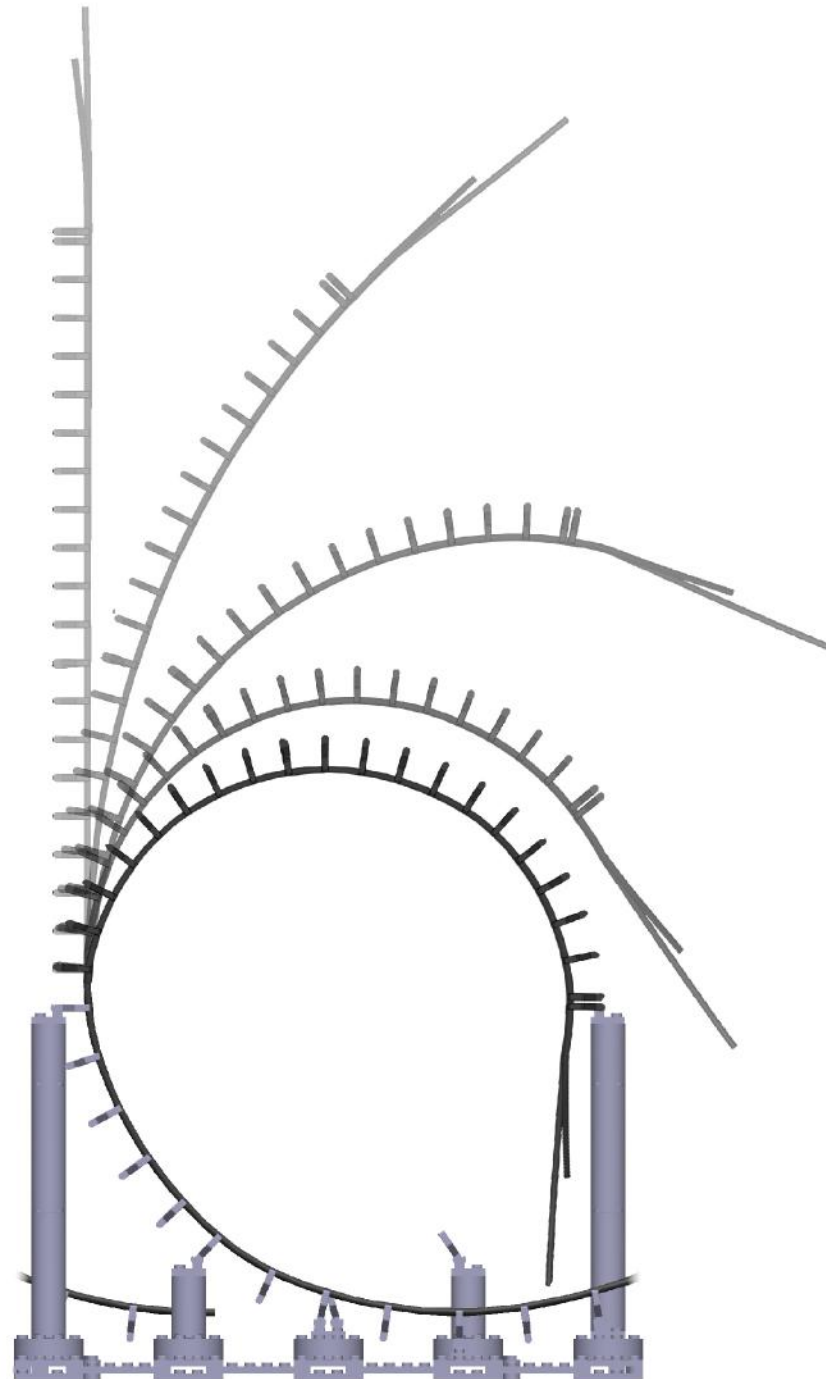

Be sure track is  
straight and  
does not curve  
from side to  
side

Carefully bend the track over and attach the last cross tie to the loop support.

**\*Hint\***

If the rail comes loose from the cross ties during this step, increase the number of crossties from 21 to 25 on the previous step.

 x6

Cut extra rail and  
insert the ends into  
the rail pins
