Tournament proceeds benefit youth athletic programs in Southern Arizona and colorectal cancer research and advocacy. For more information or tournament tickets, visit www.cologuardclassic.com.

2019 marks the second year of the Cologuard Classic, named after Wisconsin-based Exact Sciences’ noninvasive at-home colon cancer screening test for average-risk individuals 50 years or older, and the

fifth year the Conquistadores have partnered with the PGA TOUR Champions. To coincide with the kickoff of National Colorectal Cancer Awareness Month, tournament week will feature numerous events to raise awareness for the disease.

ABOUT COLOGUARD

Cologuard is intended for the qualitative detection of colorectal neoplasia associated DNA markers and for the presence of occult hemoglobin in human stool. A positive result may indicate the presence of colorectal cancer (CRC) or advanced adenoma (AA) and should be followed by diagnostic colonoscopy. Cologuard is indicated to screen adults of either sex, 50 years or older, who are at typical average-risk for CRC. Cologuard is not a replacement for diagnostic colonoscopy or surveillance colonoscopy in high risk individuals.

Cologuard is not for high risk individuals, including those with a history of colorectal cancer and advanced adenoma, a family history of colorectal cancer, IBD or certain hereditary syndromes. Positive Cologuard results should be referred to diagnostic colonoscopy. A negative Cologuard test result does not guarantee absence of cancer or advanced adenoma. Following a negative result, patients should continue participating in a screening program at an interval and with a method appropriate for the individual patient. Cologuard performance when used for repeat testing has not been evaluated or established. Rx only.
