

Centre Door Knob

M51 Range

This popular smooth styled mushroom knob sits on an elegant tiered rose and has a design that allows it to be fitted beautifully in both traditional and contemporary settings. The door knob features an oval shape that is comfortable to the grip when used, while the rose is tiered for texture and eye-catching appeal. Clean, simple lines make it extremely versatile and suited to almost any type of front door, from period to contemporary. Traditionally fitted to the centre of front doors to pull them closed on departing the house.
