Aduro Single Blue Red is designed to combat acne, helping speed up recovery and healing time of acne breakouts, through the use of blue light technology.

Aduro 2+1

Aduro 2+1 is designed to treat 2 imperfections of the skin, with added infrared light technology, boosting and amplifying anti-ageing treatments.

2.2 Device Specifications

LED wavelengths	630nm, 880nm, 415nm (Red & Infrared & Blue)
Output optical power density	60 mw/cm ²
LEDs	12 Triple LEDs
Operating temperature	0°C to 40°C 32°F to 104°F
Storing and transport temperature	-5°C to 55°C 23°F to 131°F
Operating humidity	30% to 95% without condensation
Storage and Transport Humidity	20% to 95% without condensation
Charging supply	5V = 2A
Charging port	USB-C
Charging cable	USB-C to USB-A
Charging cable length	1.2 meter / 3.937 feet
Battery	3.7V, 2600mAh
Battery type	Lithium-ion
Charging time	6.5h
Recommended use	1 times per day for 4 weeks

Treatment time	3 minutes
Dimensions of the device	173.28 x 74.4 mm
Weight of the device	0.13 kg / 4.59 oz

2.8 Travel and International Use

The device's lightweight design makes it a perfect travel companion. Here are some travel tips for you:

- If you are travelling to a different region of where you bought the Device, please assure that the device is only supplied with a 5V DC Low Voltage.
- Confirm with the steward that the Device can be carried and/or used on the airplane prior to flight.

2.9 Disclaimer

DO NOT use the Device to treat any other conditions apart from the conditions that are indicated in the Indications for Use statement in Chapter General Device Information.

The Aduro LED beauty device is notintended for use in the diagnosis of disease or other conditions or in the cure, mitigation, treatment or prevention of disease, nor are they intended to affect the structure or function of the body.

3. Risks

3.1 Potential Risks

Immediately after treatment skin may appear red. Skin should return to normal within 1-2 hours.

Temporary headaches may appear after the light treatment. Consult your health professional if the headaches stay over a longer period of time.

4. Light Sensitivity Test

We highly recommend users perform a light sensitivity test before their first use of the device.

1. Place the device on the inner forearm.
2. Turn on the device to start a treatment.
3. Wait till the treatment is done. The treatment will take 3 minutes to complete.
4. If your skin feels hot or uncomfortable during the treatment directly stop! You might be sensitive to light.
5. The device will automatically turn off after the treatment is done. Remove the device and wait for at least 24 hours.

Check your skin regularly over those 24 hours, if your skin appears red and/or itchy the device is unsuitable for you. In the case of light sensitivity please contact customer support.

5. How to use the Device

5.1 General Use

1

After thoroughly cleaning the skin, long press on/key of the beauty machine for 2 seconds to start. Short press to switch the treatment mode you want.

2

The Device is placed on the area to be treated, held close to the skin, and the treatment lasts 3 minutes.

3

After finishing one area, you can move to the next area to be treated and repeat the steps until you have completed the desired treatment area.

4

Clean the Device using a water-based wipe or a damp clean cloth. Ensure the Device is NOT connected to the power supply when cleaning.

5.2 Treatment Protocol

Use the device 1 time per day for a minimum of 4 weeks. After that you can continue using the device as required based upon your lifestyle and skin condition. It is not recommended to use the device more than 7 times per week.

5.3 Charging

Charge your Aduro device fully for 6.5 hours before your first use. Only use a 5V adapter or computer USB port (avoid fast chargers as they can damage the battery).

To charge the device insert the USB-C cable into the controller. Insert the USB-A side of the cable into a USB power supply. When the controller is charged, the LED indicator on the device flashes white, and when the controller is fully charged, the indicator will be steady white.

Before charging, make sure that the plug and socket are completely dry. Failure to do so may result in electric shock, short circuit, or fire.

Note: Always unplug the device before use, the device will not work while being charged.

5.4 Care and Storage

- The lifetime of the Lithium battery can be maximized by allowing it to fully charge and then fully discharge during regular use.
- Store the device at room temperature in dry conditions.
- Store the device in the supplied packaging. Make sure the device will not bend, stretch or crush while being stored or when travelled with.
- Avoid storing the device in dusty conditions, in direct sunlight or in damp and humid conditions.
- This device contains no serviceable parts.
- Before each use, with the device switched off, clean the Device following the cleaning instructions.

5.5 Cleaning

- Clean the device with a water-based wipe or damp clean cloth. Stubborn stains can be removed by wiping gently with 70% alcohol.
- DO NOT use any other cleansing Devices as these may damage the Device.
- DO NOT clean the device while it is turned on.
- DO NOT clean the device while charging.

5.6 Troubleshooting

If the actions suggested fail to fix the problem, or the problem reoccurs, and your device is within the warranty period please return to Aduro.

⚠ DO NOT attempt to investigate any further.

⚠ DO NOT attempt to modify the device in any way. The device has NO parts you can repair yourself.

Problem	Cause	Solution
The device doesn't switch on.	The device is not fully charged, because the charging cable was not properly inserted into the power outlet.	Insert the charging cable properly into the power outlet.
	The device is not fully charged, because the charging cable was not properly inserted into the device.	Insert the charging cable properly into the device and charge the device.
	The power outlet didn't work during charging.	Try a different power outlet.
	The on/off button has not been pushed 2 seconds full second.	Push the on/off button for 2 seconds straight.
The device switches off unexpectedly.	The battery level is too low.	Charge the device.

5.7 Disposal

DO NOT dispose of the device with household waste. The Device should be recycled. The Device contains a Lithium-ion battery. For protection of the environment, please safely dispose of the device following your local guidelines.

6. Warranty

LED beauty handheld device is warranted to be free from defects in material and workmanship for 12 months from its original purchase date under normal use. This warranty extends only to the original retail purchaser with original proof of purchase and only when purchased from an authorized retailer or reseller. This warranty only extends if the device is used in conjunction with authorized Device accessories. If the Device should become defective within the warranty period, contact the retailer that you purchased the device. This warranty does not cover Devices damaged by:

- Accident, misuse, abuse, or alteration.
- Use with unauthorized accessories or use other than as instructed.
- Connecting to incorrect current and voltage.

Aduro shall not be responsible for any incidental, special or consequential damages resulting from the use of this Device. All implied warranties, including but not limited to implied warranties of fitness and merchantability are limited in duration to one year from date of original purchase.

This warranty gives you specific legal rights, and you may also have other rights that vary from country to country. Some countries do not allow the exclusion or limitation of incidental or consequential damages, or limitations on how long an implied warranty lasts, so some of the above limitations and exclusions may not apply to you.

7. How to use the Device
