Reference	Description
PW2	Universal handle for the POWERCOUP PW2 range.
THD600	Double hedge trimmer, length of the cutting bar 600mm.
THD700	Double hedge trimmer, length of the cutting bar 700 mm.
TR8	Reciprocating saw, max cutting capacity max. Ø150mm.
SC160	Reciprocating saw, max cutting capacity Ø100mm.
PW 930	Carbon extension pole, length 930mm.
PW1830	Carbon extension pole, length 1830mm.
PWT1650	Carbon extension pole, length 1650mm.
P1	Weeder with pole 1480mm.
P2	Cultivator with fixe pole 1430mm.
PWP36RB	Canker kit with rotary burr (cylindrial cutter 36mm).
PWP25RB	Canker kit with rotary burr (cylindrial cutter 25mm).
EP1700	Desuckering tool, telescopic pole 1200mm > 1600mm.
EC1700	Flower Thinner, telescopic pole 1500mm > 1900mm.
OF1530	Olive harvester, fixed pole 2200mm.
OF1830	Olive harvester, fixed pole 2500mm.
OT2650	Olive harvester, telescopic pole 2200mm > 2800mm.

SAFETY INSTRUCTIONS

WARNING. Read all safety warnings and all instructions. Failure to abide by warnings and instructions could lead to an electric shock, fire and/or serious injury.

Keep all safety warnings and instructions so that you can refer to them at a later date.

The term “tool” in the warnings refers to your electrical tool run off the main supply (with supply power cord) or your electrical battery-operated tool (without a supply power cord).

PERSONAL PROTECTIVE EQUIPMENT

	Read the user manual carefully, especially the safety instructions.
	You MUST wear a helmet, eye protection and hearing protection
	Hand protection, for work gloves.
	Foot protection by closed toed shoes.
	Face protection, or visor.
	Note: The extensions poles are made of carbon, which conducts electricity. Do not use the extensions poles near electricity supply points or electrical wires.
	Note: Do not place any part of your body close to the blade. Do not remove cut material or hold the material you wish to cut while the blades are moving..

ENVIRONMENTAL PROTECTION

Follow the specific instructions for waste elimination in your country.

Electrical appliances should not be thrown in the garbage.

The device, accessories and packaging should be recycled.

Ask your specialist INFACO retailer for the latest information on eco-compatible waste elimination.

USER'S MANUAL

Installation and power connection

 Only use INFACO brand batteries with a supply voltage 48 volts.

 If it is raining, the battery vest must be worn underneath waterproof clothing so that the battery unit and control box remain dry.

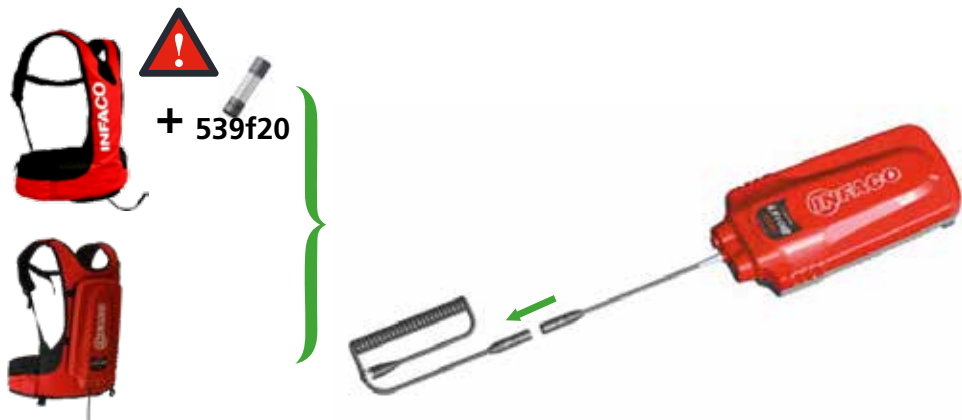

USING THE MACHINE

Mounting and disassembly of the handle

Storage - transportation

 For transportation, storage, maintenance, tool maintenance or any other operation outside of using the tool **you must unplug the tool.**

Hedge trimmer

E/

F/

G/

H/

I/

J/

K/

1 Start: 2 short pulls of the trigger = ON
Standby output: 2 short pulls of the trigger = ON
Normal operation: 1 long pull of the trigger = ON
 Releasing the trigger = OFF

Must keep both hands

L/

M/

**Maintenir
obligatoirement
à deux mains**

The tool is fitted with an electronic protection system. As soon as the tool becomes blocked due to meeting strong resistance, the electronic system causes the motor to stop. Restart the tool by carrying out operation «k» in “Using the machine” on page 7.

SAFETY PRECAUTIONS

Must keep both hands

 For transportation, storage, maintenance, tool maintenance or any other operation outside of using the tool **you must unplug the tool.**

Warning

Warning concerning work at height using a ladder
This configuration is risky and not recommended.

It is **imperative** to put the machine to the ground. Unplug the cable from the battery before moving from A to B.

We advise using an extension pole (optional) for all work at height. It can avoid risks from falling and other accidents. (see VIEWS OF ACCESSORIES Page 6)

CARE AND MAINTENANCE

		All maintenance operations or maintenance must be performed after disconnecting the tool from all power sources.		Before starting work	At the end of work daily	Each time the battery is changed	Weekly	Monthly	Yearly	If faulty	If damaged	As required
		Maintenance of the tool depends on frequency of use.										
		Occasional use, space out intervals.										
		Intensive use, more frequent intervals.

Lithium grease ref : 352B

+

Cleaner ref : B500N

+

Lubricant ref : B500L

Clean **B500N**

Lubricate **B500L** or **LUB**

Greasing

Recommended products:

Grease ref : B400G

or

Lithium grease ref : 352B
(supplied with PW2 handle)

Sharpening

If you have no experience sharpening blades, it is highly recommended to ask your local retailer for assistance. They are authorized and trained to sharpen your Hedge trimmer.

Recommended equipment:

- Flat file for hard steel

Recommended sharpening:

- Place the file, respect the existent sharpening angle. Please follow the movement as shown.

SAFETY INSTRUCTIONS

BEWARE! In order to reduce the risk of electrical discharge, injury and fire during the use of electrical tools, please observe the following basic safety measures. Read and follow these instructions before using the tool, and keep these safety instructions!

When not in operation, the POWERCOUP PW2 handle and its accessories must be disconnected and stored in their case.

 **PW2 POWERCOUP handle must always be disconnected from all power sources to the following :** servicing, charging the battery, maintenance, transport.- Storage.

While the tool is in operation, always remember to keep hands away well away from the accessory being used.

Do not use the tool if you are tired or feeling unwell.

Wear recommended safety equipment specific to each accessory.

Do not leave the tool within the reach of children or visitors.

Do not use the tool if there is any risk of fire or explosion- for example in the presence of flammable liquids or gas.

Never carry the charger by its power cord, and so not pull on the power cord to unplug it.

Keep the power cord away from heat sources, oil or sharp edges.

Never use the tool at night or in poorly lit conditions without setting up extra lighting.

While using the tool, make sure you keep both feet on the ground and stay well-balanced.

Be careful – the extension poles and rake are made out of carbon – a conductive material. Do not use near electrical wires or other power sources.

Do not let any part of the body come close to the blade.

Do not remove the cut material or hold the material to be cut while the blades are moving.

Make sure the switch is closed when removing jammed material. When working, one second of distraction can cause an accident leading to serious injuries.

Carry the machine by its handle, with the cutting blade stopped. Always cover the cutting system with its protective casing during transport or storage. The correct handling of the saw will reduce the risk of injury from the cutting blades.

Keep the cord away from the cutting zone. When in use, the cord can be hidden in the shrubs and accidentally cut by the blade.

WARRANTY CONDITIONS

The POWERCOUP PW2 handle is covered under warranty for a period of two years against all manufacturing faults and defects.

This warranty corresponds to recommended use of the tool and excludes:

- Damage due to poor maintenance or a lack of maintenance,
- Damage due to inappropriate usage,
- Damage due to normal wear and tear,
- Tools which have been dismantled by unauthorized repairers,
- External forces (fire, flooding, lightning, etc.),
- Damage from tool being dropped or from other impact,
- Tools with warranty cards not returned at the time of purchase,
- Tools used with a battery or charger other than those manufactured by INFACO.

INFACO shall not remit payment for any monetary loss incurred for the time the tool is unavailable during repairs.

All repairs made by a person other than an approved INFACO authorized service provider (ASP) will invalidate the equipment warranty.

In case of any breakdown, we strongly recommend that users of INFACO equipment either contact the retailer from whom they purchased the tool, or our after-sales service on (+33) 05 63 33 91 49 (France).

Please note our after-sales service shipping policy:

- For equipment submitted to us within the scope of the warranty, you pay to send it to us and we pay the return postage.
- For equipment which is not within its warranty period, you pay to send it to us and the return will be made at your cost, cash on delivery. We will send you an estimate if the cost of the repair is more than \$80.

RECOMMENDATIONS

Keep your work area tidy.

Untidiness in the work area increases the risk of accidents.

Take the work area environment into account.

Don't expose electrical tools to the rain. Don't use electrical tools in a humid or wet environment. Make sure the work area is well lit. Don't use electrical tools if there are flammable liquids or gases in the vicinity.

Protect yourself against electrical discharge.

Avoid bodily contact with grounded surfaces, such as, for example: battery charger, multiway electrical sockets, etc.

Keep children away!

Don't allow other people to touch either the tool or the power cord. Keep others well away from your work area.

Store your tools in a safe place.

Tools not in use should be stored in a dry, enclosed place, in their original packaging and out of the reach of children.

Wear suitable working gear.

Do not wear flowing clothes or jewelry. These could get caught up by moving parts. When working outdoors, it is recommended that you wear rubber gloves and shoes with non-slip soles. Use a hairnet if you have long hair.

Wear protective goggles.

Use a mask as well if the work you are doing produces dust or debris.

Take care of the lead.

Never carry the charger by its power cord, and so not pull on the power cord to unplug it. Keep the power cord away from heat sources, oil or sharp edges.

Take good care of your tools.

Regularly check the condition of the power cord and plug, and have them changed by an approved specialist if they show any signs of damage. Keep the POWERCOUP PW2 material dry and free of oil and grease.

Remove the tool keys.

Remove any adjustment keys before switching on the tool.

Check whether your tool is damaged.

Before using the tool, carefully check that the safety features are in perfect working order and whether any parts have been even slightly damaged.

Have your tool repaired by a specialist.

This tool is compliant with the safety regulations in force. All repairs must be carried out by an authorized service provider (ASP) or by INFACO and exclusively using original parts. Parts which are not original may seriously risk the safety of the user.

REPAIR

Problem	Cause	Solution
Bad cuts	Manque de graisse	Lubricate the the hedge trimmer following the procedure
	Blade wear	Contact your dealer
Noise in the pole	Deteriorated pole guide	Contact your dealer
Tool does not start	Battery drained	Recharge the battery
	No power to the tool	Reconnect to power source
	Others	Contact your dealer
Tool suddenly stops	Battery drained	Recharge the battery
