INTRODUCTION

Stardust Tarot Dice is a fresh and innovative approach to the ancient art of Tarot. This unique set of dice allows you to experience the wisdom of the Tarot in a whole new way without the need for a traditional deck of cards.

It includes 13 dice with symbols on 6 sides, each representing a different Tarot card and featuring a beautiful and intricate design. Simply roll the dice and let the symbols and numbers guide you on your journey of self-discovery.

With its minimalist design and inspiration from beauty of the cosmos, Stardust Tarot Dice is perfect for the modern mystic looking to add some excitement and spontaneity to your Tarot practice.

DRAWING THE DICE

Dice have a different application than Tarot cards, but divination is what you make of it. With time you'll start thinking up many ways to use these dice with your intuition. The dice will clarify the great uncertainties of your life and help you discover your own magic. They are great for beginners or experienced readers.

Start by familiarizing yourself with the symbols of each dice for a more insightful experience. Think of question you want to ask the Universe. It can be as simple as «What do I need to focus on today?». Use the pouch to shuffle the dice while concentrating on the question.

We recommend these 3 draws to get you started :

- Take one dice from the pouch at the time and roll it for a reading.
- Take several dice, roll them together and read them from left to right (we recommend using 3 dice for an easy reading or a past/present/future spread).
- Take one dice from the pouch, roll it, note it down then put it back in the pouch and start over. This method increases the probability of having all sides of the dice. However, if you fall back on the same side, it is up to you to choose, either to throw it again or to take it into account. Your choice must be made before the throw.

MAJOR ARCANA

The 22 Major Arcana cards in the Tarot are considered to be the most significant and influential in the deck. They are often seen as a reflection of the universal journey of self-discovery, with each card representing an important life lesson or theme. As you work with these cards, you may find that they provide insight and guidance on your own personal journey of self-discovery and growth.
