Remote Battery Installation

1. Use a screwdriver to remove the battery cover.

2. Place two AA's with the corresponding polarities as labeled on the unit.

3. Replace the battery cover and screw back into place.

# Battery Warnings

1. Insert batteries with correct polarity.
2. Do not mix old and new batteries.
3. Do not mix alkaline, standard (carbon-zinc), or rechargeable (nickel-cadmium) batteries.
4. Rechargeable batteries are to be removed from the drone before being charged.
5. Rechargeable batteries are only to be charged under adult supervision.
6. Exhausted batteries are to be removed from the drone.
7. The supply terminals are not to be short-circuited.
8. In order to avoid battery leakage causing damage to the remote controler, please take out the battery if not in use for a long time.
