REMOTE CONTROL
OPERATION

SINGLE BUTTON MOVEMENT
Button 5 Move Forward • **Button 6** Move Backward • **Button 7** Flip/Spin Left • **Button 8** Flip/Spin Right

DUAL BUTTON MOVEMENT (REPEATEDLY)
Buttons 5 & 7 moves forward and flips left • **Buttons 6 & 8** moves forward and flips right
NOTE: SC3 body needs to be right side up. If the body is with the battery compartment facing up the SC3 will respond opposite meaning every action in reverse.

TO PROGRAM YOUR FLIP RACER
Buttons 1, 2, 3, 4 are PROGRAM action buttons. Press actions buttons 1, 2, 3, 4 upto 6 times each for one single program.
Action Buttons: 1 - Left Flip • 2 - Forward • 3 - Right Flip • 4 - Backward • Center - PROGRAM Button
Example 1: Press 2 once and PROG once. The SC3 will move forward a short distance. Press PROG again and it will repeat.
Example 2: Press 2 twice and PROG once. The SC3 will move forward a longer distance. Press PROG again and it will repeat.
Example 3: Press 2 once, 3 once and PROG. The SC3 will move forward and flip right once. Press PROG again and it will repeat.
Example 4: Press 2 once, 1 once and PROG. The SC3 will move forward and flip left once. Press PROG again and it will repeat.
Example 5: Press 2 once, 4 once and PROG. The SC3 will move forward and backward. Press PROG again and it will repeat.
The more times (Upto 6 times) you press action buttons the farther it goes and the more it flips and spins.

BATTERY & CHARGING

BATTERY CHARGING:
1. Plug your battery in your computer USB port or a USB plug.
2. The charging light will come on when charging and turns off when charging is complete (40 Minutes).
3. Unscrew battery compartment and plug it into the SC3.
4. Charing time is 40 minutes. Run time is 20 minutes.
5. Battery Size (3.7V 300MAH) Pre-Installed in car UNPLUGGED (Must be plugged in).
