Wireless Door/Window Sensor Home Screen

The home screen will show the live Wireless Door/Window Sensor status.
1. Press the "Click to view more" button to view the alarm history.
2. Press the " ⚙ " button to set the Wireless Door/Window Sensor alarm mode.
Configure the Wireless Door/Window Sensor Settings

Different features can be adjusted from the menu button on the upper right hand button "✎" on the APP.
1. Device Name can be changed as desired.
2. Device information can check the information of the Door/Window Sensor.
3. Tap-to-Run and Automation allows to check the Smart Automation your device linked with.
4. Supported Third-Party Control provides the information about how to connect your device to Amazon Alexa and Google Assistant.
5. Add Members to be able to control the device in the Share Device setting.
6. FAQ & Feedback allows users to report issues and get help.
7. Add to Home Screen allows you to add the Wireless Door/Window Sensor to the home screen of your smartphone.
8. Remove device will remove the Wireless Door/Window Sensor from the Xodo Smart app and remove pairing. This is necessary if pairing with a new device.
9. Restore Factory Defaults allows to reset the Wireless Door/Window Sensor to factory setting.
## Link Xodo Smart account to Google Home Screen

1. Open Google Play Store or Apple Store and download Google Home
2. Open the Google Home app. Click on Get Started.
3. Login with a Google Account or create a new account.

4. Use Location access to find devices on the same wifi network.
5. You will need permission so Google Home can access your device.
6. The app will search for devices to connect.
7. If no devices can be found that are already setup, select NO.
8. A youtube video is available to help instruct how to use smart devices.
9. The app will show settings to add devices, setup routines, and adjust settings.
10. If the devices are already installed and setup through the Xodo app, you can select the "Works with Google" setup option to continue.
11. Configure the home settings by adding address and name to a "Home" group.
Control your smart devices through Google Home

Now you can control your smart devices through Google Home. Take XODO bulb as the example, the supported voice commands are as below:
1. Ok Google, turn on/off bedroom light.
2. Ok Google, set bedroom light to 50 percent.
3. Ok Google, brighten bedroom light.
4. Ok Google, dim bedroom light.
5. Ok Google, set bedroom light to red.

Link Xodo Smart account to Alexa

1. Download the free Alexa app from the Amazon Appstore, Google Play, or the Apple App Store.
2. Open Alexa app to home screen
3. In upper left hand corner open the menu.
4. Next click on "Skills & Games"
5. In top of app you can now search for "Smart Life"
6. Smart Life App will appear.
7. Open the smart life app to add
8. Click Settings
9. Manage Smart Home Devices to verify Smart Life has been added.
10. You will be redirected to the account link page. Type in your Xodo Smart account and password, don't forget to select the country/region where your account belongs to. Then tap "Link Now" to link your Xodo Smart account. The country/region, the account, and the password must match.
