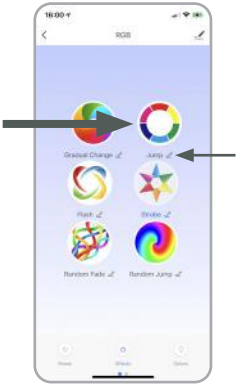
Cycles between up to 6 different colors with a transition that fades from one color to the next.

You can individually customize the 6 colors and the speed of the effect by tapping next to the "Gradual Change" text.

JUMP

Cycles between up to 6 different colors without any transition

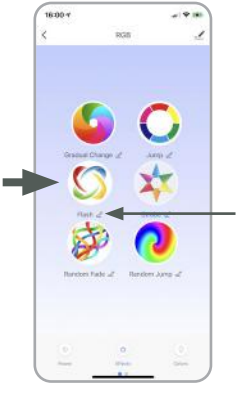
You can individually customize the 6 colors and the speed of the effect by tapping the button next to the "Jump" text.



FLASH

Cycles between up to 6 different colors with a transition that fades in/fades out each color.

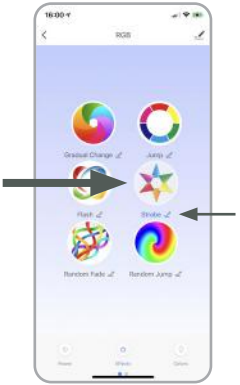
You can individually customize the 6 colors and the speed of the effect by tapping the button next to the "Flash" text.



STROBE

Cycles between up to 6 different colors with a transition that momentarily flashes each color.

You can individually customize the 6 colors and the speed of the effect and the speed of the effect by tapping the button next to the "Strobe" text.



RANDOM FADE

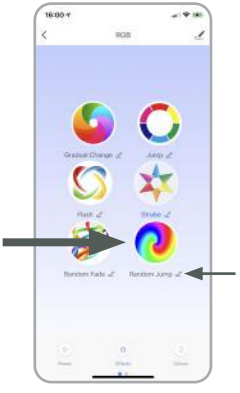
Cycles each bulb individually between several colors and on/off with a transition that fades from one color to another.

You can individually customize the speed of the effect by tapping the button next to the "Random Fade" text.

RANDOM JUMP

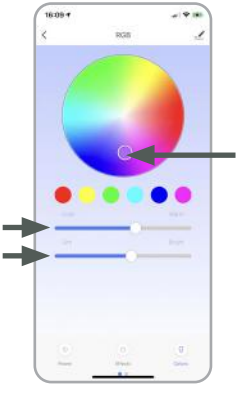
Cycles each bulb individually between several colors and on/off with no transition.

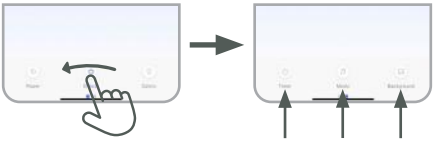
You can individually customize the speed of the effect by tapping the button next to the "Random Jump" text.



Colors

Set the lights to a specific color and brightness by tapping on different parts of the color wheel and using the sliders labeled Cold/Warm and Dim/Bright.





Swipe to the left on the feature bar

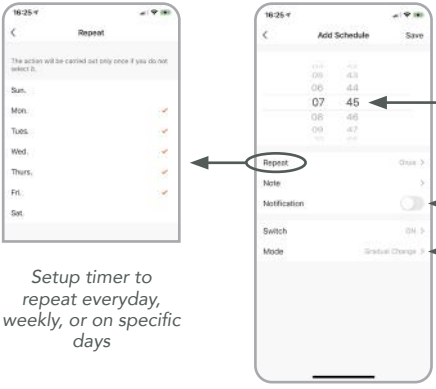
Reveal second page of features (Timer, Music, Background)

Timer

Schedule lights to turn on/off at a particular time and with a particular effect.

Tap Timer button

Tap Add button to create schedule



Setup timer to repeat everyday, weekly, or on specific days

Music

Listens through your smartphone's microphone to change lights to music that it hears. Works best with music that has a pronounced beat.

Tap Timer button

Background

Let's you change the background of the app between various selections

Tap Background button

Device Configuration Settings

By tapping the icon in the upper right corner of the app, you can enter the device configuration page and change a number of settings.
