RAW EDGE APPLIQUE
## *with fusible web*

YOU WILL NEED

1. Printed pattern
2. Your favorite fabrics
3. Paper backed fusible web
4. Thread
5. Embroidery stabiliser (optional)

1. Domestic sewing machine
2. Fabric and paper scissors
3. Iron
4. Pencil

1 Transfer the pattern

Transfer the mirror image of the applique outline to the paper lining on the fusible web.
IMPORTANT: trace the inverted (mirror) shape to get the correct final applique orientation.

Fusible web

2 Fuse with the fabric

Cut out roughly the traced shape from the paper backed fusible web. Place it on a back side of the fabric with the fusible web facing down. Press gently with a hot iron to fuse.

Back side of the fabric

3 Stick to the background

Peel off the paper lining. Position the applique piece on the background fabric and press with a hot iron to fuse.
TIP: Use a pointy tool such as a seam ripper to handle very tiny pieces.

Background fabric

4 Sew the applique

Stitch slowly around the applique edges to attach. Use straight line, blanket, zigzag, satin or other decorative stitches.
TIP: Use embroidery stabiliser to avoid fabric pulling.

Background fabric
