ZIG-ZAG™ Ruler

designed by Char Hopeman

“If you can sew three strips together, you can ZIG-ZAG!”

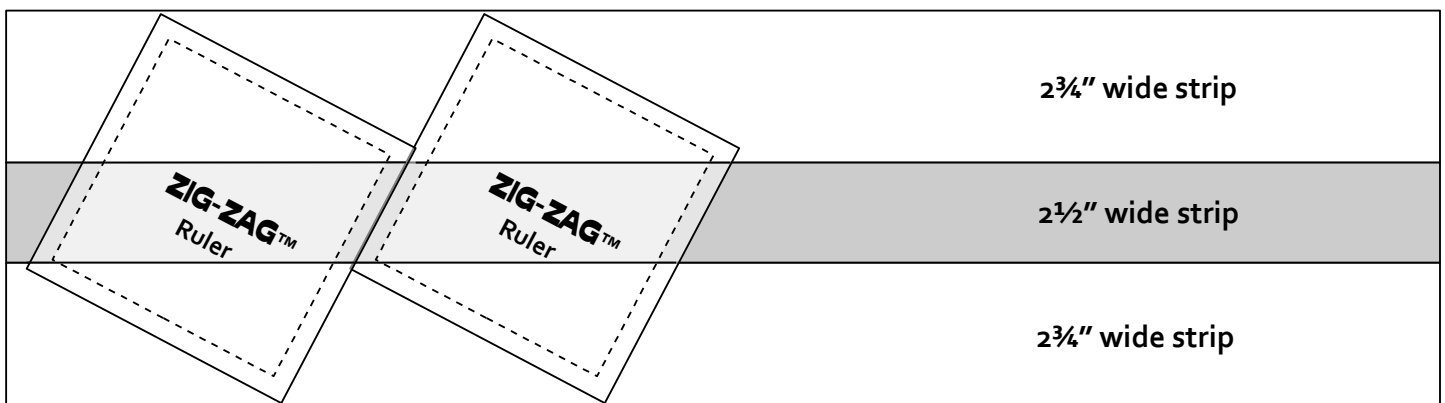

HOW IT WORKS

Make a simple strip-set using $2\frac{3}{4}$ " wide and $2\frac{1}{2}$ " wide strips.

Lay the **ZIG-ZAG™** Ruler on the strip-set with the diagonal lines on the ruler, lined up with the seam lines in the strip-set. Cut around the ruler. You have a **ZIG!**

Turn the ruler wrong side up and cut around it and you have the mirror image, a **ZAG!**

Save the leftover wedges ("**Slivers**") for more fun ideas.

You will be amazed at all of the designs you can make using this technique!

Also available: **ZIG-ZAG™** "MINI" Ruler
using $1\frac{3}{4}$ "w and $1\frac{1}{2}$ "w strips.
