Micro batch craft vodka

Three ingredients - molasses,
imported French yeast & water

Retail: R419

CLouDBURST ARTISANAL GIN

Springtime in Johannesburg means jacaranda-lined streets and daily afternoon thundershowers that you can almost set your watch by.

This carefully crafted gin is earthy, fragrant and woody, evoking the purple, blossom-strewn pavements of the city after a storm.

Cloudburst makes an excellent G&T or adds character to your favourite cocktail.

When it pours, it rains. Cloudburst Gin.

THE TWELVE BOTANICAL GIN

This small-batch gin contains a distinctive blend of twelve hand-selected botanicals that are vapour-infused for maximum flavour. It delivers unrivalled smoothness and a warm, spicy finish that's complemented by gentle citrus notes. It's best enjoyed neat or at the heart of a dry martini, but it holds its own perfectly when blended with your favourite tonic.

THURSDAY CRAFT GIN

A good gin doesn't need a special day of the week. But as most Johannesburg natives will tell you, by the time Thursday rolls around you can feel the weekend. When that happy feeling grabs you, it's the perfect time for a Thursday gin and tonic. Uncomplicated, smooth and expertly crafted. Thursday Artisanal Gin is all about fresh citrus.

Make every day a Thursday.

BIGSMOKE ARTISANAL VODKA

The distillery's flagship vodka is a tribute to the unique, go-getter energy that Johannesburg exudes.

Made from only three ingredients - high-grade molasses, imported French yeast and water - Big Smoke is distilled to a purity that's high enough for it to be categorised a Vodka, while still maintaining the lovely caramel and smoky nose and full mouthfeel our molasses blend contributed.

The result is a vodka that's smooth enough to enjoy neat but contributes fantastically to cocktails and mixed drinks.

Shake things up. BigSmoke Vodka.

- Plastic anti-tamper shrink sleeve
- Back label will be provided with
 - Alcohol by Volume
 - Volume of bottle
 - A Number (manufacturer's tracking number)
 - Logo
 - Warning requirements

VODKA, GIN & RUM HAND-MADE IN JOBURG

Where most craft distillers simply buy neutral alcohol from a mass supplier and 'finish' it in their distillery, the Johannesburg Distilling Company stands apart from its competitors in that the vast majority of its spirits are built from scratch, using a foundation of high-grade molasses, water and a super-secret blend of French yeasts and nutrients.

Once it achieves a good alcohol strength, this fermentation is twice distilled, and then sometimes distilled once more to produce some of the smoothest, easy drinking spirits the market has had the opportunity to savour.

Our in-house molasses fermentation process isn't about cost savings. In fact, it's far more difficult and expensive than using bought-in neutral alcohol. When you taste our spirits however, you'll understand why we've made this choice. The most noticeable difference is mouthfeel which coats the palate and lingers well after the first sip. A subtle caramel, smokiness also permeates our spirits and places us in a category of our own.

Our current line-up features one vodka and two gins. The coming months will see us releasing our much-anticipated aromatic bitters and spiced rum - Sugartax - made in the likeness of some of our favourite sipping rums - most notably from Venezuela and the Philippines.

Come and taste at 102 Corlett Drive, Melrose, Johannesburg.
