Name: Pred Arctic	Pack size: 10 pairs
Liner: Polyester, Acrylic, HPPE, Steel	Case size: 120 pairs
Gauge: 13/7	EN388: 4X43E
Coating: Smooth Nitrile with Sandy Nitrile Palm	EN511: X21

Limitations of Use:

Maintenance - Examine gloves for damages, splits and holes before each use. Always replace damaged gloves. Only properly fitting gloves guarantee protection and grip.

Storage - Store at normal room temperature in a dry, well ventilated area. Avoid direct heat radiation.

Disposal - Used gloves can be contaminated. Dispose with household waste or as instructed by your local authority.

Cleaning - Do not wash. The performance of the product after laundering is unknown. Beat or brush out after each use, depending on level of dirt.

Durability - The period of use depends on the degree or intensity of use in the retrospective application. It is therefore not possible to provide a 'life span' of the gloves.

Note - Due to the nature of this product the user is advised to carry out their own risk assessment before use, depending on application.

- **Contact cold level 2** under EN511:2006
- **Cut level E** under EN388:2016
- Elasticated cuff with coloured cuff size indicator

Suggested Applications

- Cold Stores
- Construction
- Engineering
- Maintenance
- Scaffolding
- Transport
- Utilities
- Waste Management

Testing Requirements

These items comply with the requirements of Module B of the PPE Regulation (EU) 2016/425 and the harmonised standard(s) referenced.

The CE mark indicates that the product complies with the general requirements, as laid out in the PPE Regulation (EU) 2016/425: Personal Protective Equipment Directive, BS EN ISO 21420 Protective Gloves General Requirements.

EN388:2016 performance levels shown are taken from the palm area only.

EN511:2006 - This standard applies to gloves which protect against convective cold, contact cold, and water permeability.

These gloves meet the requirements for resistance to water ingress, tested under ISO15383.
