

# Pred Signature Mig

## Key Features

- Top quality split leather gauntlet (cow)
- Additional leather covering the palm and thumb area
- Twaron heat resistant thread for longevity of product
- 100% Cotton fleece lining
- Gold with black double palm and welting

## Specifications

Code: <b>PRED4</b>	Pack Size: <b>10 pairs</b>
Name: <b>Signature Mig</b>	Case Size: <b>50 pairs</b>
Liner: <b>100% cotton</b>	Type: <b>Type A</b>
Size: <b>11</b>	EN388: <b>4234X</b>
Length: <b>14"</b>	EN407: <b>41314X</b>

## Suggested Applications

- Construction
- Metal Handling
- Engineering
- Agriculture
- Metal Fabrication
- Forging
- Landscaping
- MIG/ARC Welding

## Limitations of Use:

**Maintenance** - Examine gloves for damages, splits and holes before each use. Always replace damaged gloves. Only properly fitting gloves guarantee protection and grip.

**Storage** - Store at normal room temperature in a dry, well ventilated area. Avoid direct heat radiation.

**Disposal** - Used gloves can be contaminated. Dispose with household waste or as instructed by your local authority.

**Cleaning** - Do not wash. The performance of the product after laundering is unknown. Beat or brush out after each use, depending on level of dirt.

**Durability** - The period of use depends on the degree or intensity of use in the retrospective application. It is therefore not possible to provide a 'life span' of the gloves.

**Note** - Due to the nature of this product the user is advised to carry out their own risk assessment before use, depending on application.

## Testing Requirements

These items comply with the requirements of Module B of the PPE Regulation (EU) 2016/425 and the harmonised standard(s) referenced.

BS EN388:2016, EN420:2003 + A1:2005

Type "A" gloves are recommended for processes other than Tig Welding when high dexterity Type "B" gloves are recommended.

Note - There is no standardised test method at present for detecting U.V. penetration of materials for gloves but the current methods of construction of protective gloves for welder's do not normally allow penetration.

The CE mark indicates that the product complies with the, EN420 + A1:2009 Protective Gloves General Requirements.

EN388:2016 performance levels shown are taken from the Palm area only.
