

# Pred Twaron® Heat Resistant Sleeves

**Key Features**

- Twaron® aramid fibre heat resistant sleeve
- Thumb hole and elasticated cuff
- Twaron® has no melting point and only starts to degrade around 500°C

**Specifications**

Code: **TW-SL14/18/22** Pack Size: **20 sleeves**

Name: **Twaron Sleeve** Case Size: **100 sleeves**

Liner: **N/A** EN388: **1X4XC**

Size: **Stretch Fit** EN407: **X1XXXX**

Length: **14", 18" or 22"**

**Suggested Applications**

- Steelwork
- Metalwork
- Engineering
- Agriculture
- Automotive
- Welding
- Fabrication

Great for industries where heat protection and a level of cut protection is required

**Limitations of Use:**

**Maintenance** - Examine gloves for damages, splits and holes before each use. Always replace damaged gloves. Only properly fitting gloves guarantee protection and grip.

**Storage** - Store at normal room temperature in a dry, well ventilated area. Avoid direct heat radiation.

**Disposal** - Used gloves can be contaminated. Dispose with household waste or as instructed by your local authority.

**Cleaning** - Do not wash. The performance of the product after laundering is unknown. Beat or brush out after each use, depending on level of dirt.

**Durability** - The period of use depends on the degree or intensity of use in the retrospective application. It is therefore not possible to provide a 'life span' of the gloves.

**Note** - Due to the nature of this product the user is advised to carry out their own risk assesment before use, depending on application.

**Testing Requirements**

These items comply with the requirements of Module B of the PPE Regulation (EU) 2016/425 and the harmonised standard(s) referenced: BS EN388:2016, EN420:2003 + A1:2005.

The CE mark indicates that the product complies with the general requirements, as laid out in the PPE Regulation (EU) 2016/425: Personal Protective Equipment Directive, EN420 + A1:2009 Protective Gloves General Requirements.

EN388:2016 performance levels shown are taken from the Palm area only.

Contact Heat Level 1, as tested under BS EN407:2004.
