## The Celina

**Meet Celina** – *Celina* is the quiet beauty of a sky turning pink at dusk. With swirls of soft rose and cloud-white marble, her form captures the fleeting magic of golden hour—gentle, romantic, and endlessly calming. Topped with a crisp linen shade, she brings a soft glow to any space—like the final light of day lingering just a little longer. *Celina* doesn't just illuminate, she soothes—offering a sense of stillness, warmth, and wonder.

---
