2024 - 2025

Exclusive Canadian distributor for:

RIOS1931

RIEMER OSWALD

MADE IN GERMANY

Dear Valued Customer,

Alpine International is pleased to introduce our 2024-2025 catalogue with an array of new and unique products specifically curated with our customers in mind. We are committed to consistently expanding our collection and are excited to announce the addition of Maxell & Renata watch batteries to our 2024/25 catalogue. We are proud of our extraordinary selection of high-quality watch bands, watch winders, gift items, medical ID bracelets and fashion jewellery, all of which are now available to all our customers across Canada and the United States. We invite you to browse through a copy of our catalogue or simply download a PDF copy on our website www.alpineselection.com. Merchandise is available to order either through our distributors, or directly for purchase through Alpine International.

Alpine International values your continued support and is committed to providing you with the best quality products and customer service. Our number one priority will always be to support our customer's objectives by providing the best products along with a great customer service experience.

Sincerely,

Raj Tilokani

President, Alpine International

Cher client,

Alpine International a le plaisir de vous présenter son catalogue 2024-2025 avec un éventail de produits nouveaux et uniques, spécialement conçus pour nos clients. Nous nous engageons à élargir constamment notre collection et sommes ravis d'annoncer l'ajout des piles de montres Maxell et Renata à notre catalogue 2024/25. Nous sommes fiers de notre sélection extraordinaire de bracelets de montres de haute qualité, de remontoirs, d'articles-cadeaux, de bracelets d'identification médicale et de bijoux fantaisie, qui sont désormais disponibles pour tous nos clients au Canada et aux États-Unis. Nous vous invitons à consulter une copie de notre catalogue ou à télécharger une copie PDF sur notre site web www.alpineselection.com. Ces produits peuvent être commandés soit auprès de nos distributeurs, soit directement auprès de Alpine International.

Alpine International apprécie votre soutien indéfectible et s'engage à vous fournir des produits et un service clientèle de la plus haute qualité. Notre principale priorité sera toujours de soutenir les objectifs de nos clients en leur fournissant les meilleurs produits ainsi qu'un service à la clientèle de haute qualité.

Je vous prie d'agréer, Madame, Monsieur, l'expression de mes salutations les plus distinguées,

Cordialement,

Raj Tilokani

Président, Alpine International

Since 1931

Depuis 1931

*Company founder Oswald Riemer with a master leather craftsman
Oswald Riemer, fondateur de l'entreprise, avec un maître artisan du cuir*

*Group picture of the staff of 1938
Photo de groupe du personnel de 1938*

*A look into the workshop of 1938
Un regard dans l'atelier de 1938*

Steeped in tradition, inspired by the zeitgeist.

Imprégné de tradition, inspiré par les tendances du temps.

When you purchase a RIOS1931 watch strap you are acquiring a high quality craft product. Since the foundation of our company by watchmaker Oswald Riemer in 1931, we have always used the Swiss full-bugg technique. Then as now, this is a method designed to ensure the highest level of quality. As a family business in its third generation, we still have the same philosophy as originally defined by Oswald Riemer: »Preserve skilled craftsmanship while focusing on fashion and meeting the technical requirements of the day.« The combination of traditional, handcrafted perfection while constantly evolving has made the watch straps of RIOS1931 a unique product worldwide.

Lorsque vous achetez un bracelet de montre RIOS1931, vous faites l'acquisition d'un produit artisanal de haute qualité. Depuis la fondation de notre entreprise en 1931 par l'horloger Oswald Riemer, nous avons toujours utilisé la technique suisse du bracelet intégral. À l'époque comme aujourd'hui, il s'agit d'une méthode conçue pour garantir le plus haut niveau de qualité.

En tant qu'entreprise familiale de troisième génération, nous avons toujours la même philosophie que celle définie à l'origine par Oswald Riemer : « Préserver le savoir-faire artisanal tout en se concentrant sur la mode et en répondant aux exigences techniques du moment ». La combinaison de la perfection traditionnelle et artisanale tout en évoluant constamment a fait des bracelets de montre de RIOS1931 un produit unique au monde.

| Guido Satzger |

| Andreas Riemer |

Andreas Riemer (right), President and third-generation member of the family which gave the company its name, and Guido Satzger (left), CEO, are marking the presentation of the certificate awarded by the City of Augsburg for »Quality – made in Augsburg« by the Lord Mayor Dr. Kurt Gribl on the 26th June 2017 in the Golden Hall in the City of Augsburg.

Andreas Riemer (à droite), président et membre de la troisième génération de la famille qui a donné son nom à l'entreprise, et Guido Satzger (à gauche), directeur général, marquent la remise du certificat décerné par la ville d'Augsbourg pour la « Qualité - produite à Augsburg » par le Lord-Maire Dr. Kurt Gribl le 26 juin 2017 dans la Salle Dorée de la ville d'Augsbourg.

Made in Germany

Fabriqué en Allemagne

The guarantee for the consistently high quality of our watch straps is given by the business location itself - Germany.

We still train our employees ourselves, in our workshop. During the years of training, they acquire the expertise necessary to make a RIOS1931 watch strap.

It takes a trained eye and a great deal of skill to select the materials needed for the production of our watch straps. We use only the highest grades of leather available. You can be sure of a luxury product of the highest quality, authenticity and longevity when purchasing an RIOS1931 strap.

La garantie d'une qualité élevée et constante de nos bracelets de montres est assurée par le site même de l'entreprise - Allemagne. Nous formons toujours nos employés nous-mêmes, dans notre atelier. Au cours de ces années de formation, ils acquièrent le savoir-faire nécessaire à la fabrication d'un bracelet de montre RIOS1931. La sélection des matériaux nécessaires à la production de nos bracelets de montre requiert un œil exercé et beaucoup de savoir-faire. Nous n'utilisons que les meilleures qualités de cuir disponibles. En achetant un bracelet de montre RIOS1931, vous avez la garantie d'un produit de luxe de la plus haute qualité, d'authenticité et de longévité.

Original and individual

Making high-quality watch straps is a craft that is still very present and alive. We aspire to maintain the original values of the business and to preserve traditional handicraft techniques. With an RIOS1931 watch strap, you are giving your watch a touch of the original in a world of mass production and ever more uniformity.

Original et individuel

La fabrication de bracelets de montres de haute qualité est un artisanat encore très présent et vivant. Nous aspirons à maintenir les valeurs originales de l'entreprise et à préserver les techniques artisanales traditionnelles. Avec un bracelet de montre RIOS1931, vous donnez à votre montre une touche d'originalité dans un monde de production de masse et de standardisation permanente.

RIOS1931 | Saddle's Seam |

It takes a master craftsman about 40 minutes to complete a perfectly stitched saddle's seam (hand seam) that will last and last.

RIOS1931 | Couture du Sellier |

Un maître artisan met environ 40 minutes pour réaliser une couture de sellier (couture à la main) parfaitement cousue, qui durera longtemps.

RIOS1931 | Water resistant |

Water resistance achieved by high-tech materials or a hydro-finished upper leather, intermediate layer and leather lining.

RIOS1931 | Couture du Sellier |

Résistance à l'eau obtenue grâce à des matériaux de haute technologie ou à un cuir hydrofini sur la partie supérieure avec une couche intermédiaire et une doublure en cuir.

RIOS1931 | Art Manuel |

The high-end »Art Manuel« strap is hand finished similarly to a »Goodyear welted« or »frame-stitched« shoe. The finest of traditional craftsmanship.

RIOS1931 | Art Manuel |

Le bracelet haut de gamme » Art Manuel « est fini à la main de la même manière qu'une » semelle Goodyear « ou une chaussure » cousue ». Le meilleur de l'artisanat traditionnel.

RIOS1931 | Organically Tanned Leather |

Upper and lining leather is tanned with vegetable substances processed according to traditional formulas with extracts of groundwood, bark, leaves and fruits. The extraordinary softness and pleasant touch result from the use of natural fats and waxes. The vegetable tanning substances give the watch strap a typical leather fragrance of bees wax and tobacco.

RIOS1931 | Cuir tanné de manière organique |

Le cuir de la partie supérieure et de la doublure est tanné avec des substances végétales traitées selon des formules traditionnelles avec des extraits de bois de terre, d'écorce, de feuilles et de fruits broyés. L'extraordinaire douceur et le toucher agréable proviennent de l'utilisation de graisses et de cires naturelles. Les substances végétales utilisées pour le tannage confèrent au bracelet de la montre un parfum typique de cire d'abeille et de tabac.

RIOS1931 | Organic Watch Straps |

All steps within the production chain are ecologically sustainable and certified organic. The natural and vegetable-tanned, absolutely soft leather give the straps of this series an excellent feel and high wearing comfort.

Chromium-free • Natural & vegetable-tanned leather • Allergy-friendly • Animal welfare approved • Sustainability chain • Leather from German cattle from approved organic farms • «Biokreis», ECARF + IVN certified

RIOS1931 | Bracelets de montre organiques |

Toutes les étapes de la chaîne de production sont écologiquement durables et certifiées biologiques. Le cuir naturel qui est tanné végétalement et d'une douceur absolue, confère aux bracelets de cette série une excellente sensation au toucher et un grand confort de port.

Sans chrome - Cuir naturel et tanné végétalement - Adapté aux allergies - Approuvé pour le bien-être des animaux - Chaîne de durabilité - Cuir provenant de bovins allemands issus d'exploitations biologiques agréées - Certifié « Biokreis », ECARF + IVN

IMPORTANT: Magnetic bracelets are not recommended to be used by people fitted with heart pacemakers and by pregnant women. Consult with your doctor if you have any questions.

MISE EN GARDE: Les bracelets magnétiques ne sont pas recommandés pour les porteurs d'un stimulateur cardiaque et pour les femmes enceintes. Veuillez consulter votre médecin si vous avez des questions.

Length of all bracelets is approximately 8 to 8.5 inches
Longueur de tous les bracelets: approximativement de 8 à 8.5 pouces

Titanium Rings / Joncs en titane

What is Titanium?

Titanium is a very lightweight metal weighing only one-third the weight of gold. It is a hard and durable metal used as a main component on NASA space shuttles. It is hypoallergenic, perfect for those with sensitive skin, making it the metal of the new millennium.

Qu'est-ce que le Titane?

Le titane est un métal léger pesant environ le tiers du poids de l'or. C'est un métal solide et robuste utilisé comme composant principal dans les navettes spatiales de la NASA. Le titane est idéal pour les peaux sensibles car il est hypoallergénique. Le titane est le métal du nouveau millénaire!

Tungsten Rings / Joncs en tungstène

What is Tungsten Carbide?

Tungsten carbide is a very hard, dense metal, twice as hard as steel, ten times harder than 18K gold. It always remains polished and is scratch resistant, providing a strong, sophisticated fashion statement.

Qu'est-ce que le Carbure de Tungstène?

Le carbure de tungstène est un métal très dur et dense. Il est deux fois plus dur que l'acier et dix fois plus dur que l'or 18 carats. Ce métal maintient un fini poli et résiste aux égratignures. Une touche à la fois audacieuse et sophistiquée !

Cobalt Rings / Joncs en cobalt

Fabulous Cobalt Rings!

For many years, Alpine has offered collections of remarkable wedding bands in alternative metals such as tungsten and titanium. Now, we bring you the new generation of contemporary metal. Cobalt rings are made from a unique alloy blend of cobalt and additives. The natural bright, white color never fades or discolors and is often compared to platinum. Cobalt is an incredibly hard metal and provides uncompromising strength. Cobalt is shatterproof, scratch resistant and hypoallergenic. Cobalt rings can be stretched up to half a size.

Joncs en cobalt spectaculaires !

Depuis plusieurs années, Alpine International offre une sélection exceptionnelle de joncs en métaux alternatifs tels que le tungstène et le titane. Il s'agit d'une nouvelle génération de métaux. Les joncs en cobalt sont fabriqués à partir d'un alliage unique de cobalt et d'autres additifs. Sa couleur naturelle vive, que l'on compare souvent à la platine, ne se décolore jamais. Le cobalt est un métal dur et résistant. Il est incassable, résiste aux égratignures et il est hypoallergénique. La taille du jonc peut être augmentée d'un demi-point.

Ahead of its time.

We are the world's leading manufacturer of silver oxide batteries.
It's because of us that Swiss watches tick so reliably.

No ticking without a Renata battery.

Your watch definitely deserves a Swiss made Renata battery.
