HOT SHOT
OVEN & KILN

Industry Leading Mechanical Design:
High-quality 1200 cu-in stainless steel and ceramic core construction enclosed by our exterior powder coated shell provides safe external operating temperatures Cool-Touch Technology.

Advanced Electrical Capabilities:
A state-of-the-art controller allows you to view and adjust the temperature of your oven making operation easy to use. The upgraded controller allows multiple ramping and holding of temperatures with free downloadable software.

Cutting Edge Performance:
High-efficiency technology allows you to reach the maximum operating temperature of 2000F/1093C in as little as 30 minutes.

HOT SHOT 1200
HEAT TREATING OVEN

Max Operating tempature	2000 F / 1093 C
Plug Voltage	240 Volt
Max Amp Draw	17 Amps
1-Phase Circuit Required	20 Amps
Break in Period	4 - 5 Hours
Dimensions (Exterior / Interior) L X W X H	21" x 23" x 20" / 10" x 12" x 10" (1200 cu-in)
Length of Cord	3 Ft
Weight	73 lbs.
Panel Style	Nema 1 / Type 1 (indoor)
