HOT SHOT
OVEN & KILN

Industry Leading Mechanical Design:
High-quality 1200 cu-in stainless steel and ceramic core construction enclosed by our exterior powder coated shell provides safe external operating temperatures Cool-Touch Technology.

Advanced Electrical Capabilities:
All Hot Shot PRO series Ovens come Wi-Fi equip and include a full-text touchscreen display allowing you to view firing schedules, live ramp data, diagnostic reporting and more. The TAP Mobile app (available on IOS & Android) provides the capabilities to control and monitor your firing schedules all while providing limitless programmability for any project.

Cutting Edge Performance:
High-efficiency technology allows you to reach the maximum operating temperature of 2000F/1093C in as little as 30 minutes.

HOT SHOT
1200 - PRO GLASS KILN

Max Operating tempature	2000 F / 1093 C
Plug Voltage	240 Volt
Max Amp Draw	17 Amps
1-Phase Circuit Required	20 Amps
Break in Period	4 - 5 Hours
Dimensions (Exterior / Interior) L X W X H	21" x 23" x 20" / 10" x 12" x 10" (1200 cu-in)
Length of Cord	6 Ft
Weight	73 lbs.
Panel Style	Nema 1 / Type 1 (indoor)
