

Model T2000

Stay healthy and hydrated with the stylish new Premier **TOUCHLESS** water dispenser. Premier provides breakthrough innovation by addressing user concerns of germs when touching water taps or paddles designed water dispensers. Premier water dispensers are 100% Touchless operation, using sensor activated technology to dispense both boiling hot or cold water. The built-in 2-step dual sensor Child Safety lock system prevents any concern of accidental burns from the dispensing of hot water. Use with standard 3 or 5 gallon bottles.

100%
Touchless
Operation

FEATURES

100% Touchless Operation

- Sensor activated technology dispenses boiling hot or cold water
- Eliminates user concerns about sharing of equipment and germs -No more fingers touching taps & glasses or mugs touching paddles
- Provides cost-effective and eco-friendly way to prioritize the health of your family, staff and customers in the Covid and post-Covid work and social environment

2-Step Dual Sensor Child Safety Lock

- Hot water LED indicator light blinks to indicate child lock feature release - Simply pour hot water once child lock release feature is activated.
- Auto Sensor stops hot water dispensing at 12oz or simply remove cup to stop dispensing

Top Load Design

- No installation and no plumbing required. Uses standard 3 and 5 gallon bottles
- Compressor cooling combined with LED Indicator lights to display status

Stylish, Modern Design

- Ideal for home, workplace, breakrooms, schools, gyms and any other place frequented by many people

Model T2000
