# Who We Are

Welcome to Scented Designs, where we're on a mission to spread health, light, and good scents to all who shop with us!

We began in our kitchen in 2016, hand-pouring small batches of candles for family & friends. They encouraged us to sell at a local craft show and pretty soon we were bringing our candles to every market we could find.

Fast forward to today where our candles have become more than wax & wick – they're a blend of dedication and values.

As a proud member of 1% for the Planet, we're committed to sustainable craftsmanship, embracing plant-based wax and bidding adieu to paraffin and phthalates. Our reputation shines with 5-star ratings across Google, Etsy, Facebook, Amazon, and Faire for our fabulous scents & great customer service.

So, welcome once again, and step inside to discover the intersection of craftsmanship and conscience that is Scented Designs.

# WHAT OUR CUSTOMERS ARE SAYING

Our customers love our candles for their bulk gifting needs, and we know you will too!

★★★★★ 3 days ago **NEW**

I contacted the owner, Kate, to see about gifting her candles to our clients for the 2022 holiday season. She was amazing to work with. Prompt, outgoing, creative and professional. She happily worked with me to make our card design a fitting and fantastic addition to the candle gift. She was open to changes and in the end created a beautiful gift. The packaging was nice and sturdy and the small box of matches was a nice touch. This is a small, female owned business and I was pleased to work with her. Reach out to Kate - you will NOT be dissapointed.

Scented Designs candles are so fragrant and burn very clean. They offer a large variety of scents that would please anyone.

Kate, who owns S.D. is so friendly and very helpful. Always there to answer any questions. I am a wholesaler and she was kind enough to take the time to design and print out labels for my company.

Thank you Kate for everything! You are amazing!

Scented Designs has been making scented soy candles for our gift boxes for years. Our gift boxes highlight creations by local Bay Area businesses, and we love partnering with and supporting Scented Designs, a woman-owned candle company in California.

We love these scented candles for our corporate gifting needs and have included them in hundreds of corporate gifts for Diwali and employee holiday gifts. Our clients love Scented Designs handpoured soy candles, especially their lovely White Birch scent, which is just a beautiful scented candle for gifts and for your home decor. Plus, we love that they're a sustainable company that works to be eco-friendly and gives back to the local community. If you're looking for soy wax candles for corporate gifting, client gifts, or holiday gifts for your family and friends, we highly recommend these clean-burning candles from Scented Designs.

jenvazquezmedia I am blown away by how nice these candles look. I purchased them as gifts for clients that book services with my Pinterest Marketing Agency. Not only are they hand-poured, Phthalate-free, Lead-free, and Paraffin-Free soy candles -- but they are 100% Woman-Owned and a local business. They designed them with my logo and brand colors and it is completely on brand. Thank you so much @scenteddesignscandleco I will be buying them again!! HIGHLY RECOMMEND!
