Flywheel Slicer

The Axis flywheel slicer is built in aluminum with internal parts made out of stainless steel. This machine is hand operated and can therefore be used in places without a power supply. The incorporated sharpener makes it easy to sharpen and helps keep the blade consistent to ensure the perfect cut. The glossy paint allows for the unit to be easily cleaned

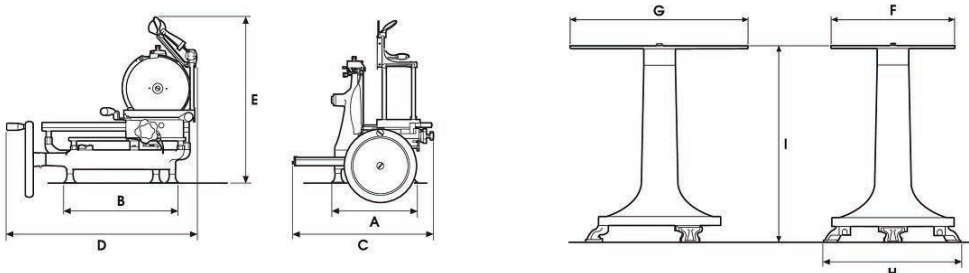

Standard Features

- Fully hand-operated. Ideal for prosciutto slicing
- Variable cut thickness
- Made of aluminum with parts of steel and black finishing
- Equipped with blade guard for safe cleaning and operations
- Built-in blade sharpeners for effective and sharp cutting
- Designed for durability and consistent slicing

*Stand sold separately
