

Molift Quattro

The temporary hoist solution with excellent stability

A freestanding traverse gantry

Molift Quattro is a freestanding hoist unit that offers a (four post) Traverse System which is the best solution for temporary hoisting needs or when the facility is not built for fixed installations. The gantry is easy to install without the need to mount additional fixtures on walls or ceilings. It is ideally suited for temporary hoist applications in nursing or private homes.

Solves most overhead lifting situations

The traverse has a lightweight aluminum frame and four steel posts that provides excellent stability and covers the surface of the hoisting requirement. Molift Quattro solves all overhead lifting situations together with the Molift Air or Molift Nomad hoist motor and a sling. With a lifting capacity of max 300 kg, it is ideal for lifting and transferring a person from or to bed, floor, chair, wheelchair, toilet etc.

Molift Quattro can be delivered in two sizes: 3x3 meters and 4x4 meters. The length of the posts are fixed. The lowest allowed distance from floor to ceiling is 2.40 meters.

Molift Air or Molift Nomad with trolleys are ordered separately.

- A: Boom lengths: 3 or 4 m
- B: Height 2.33 m (2.36–2.46 m adjustable foot is mounted, accessory)
- D: Width 3.16-4.16 m
- E: Depth 3.16-4.16 m
- Max internal space(AxC):
Molift Quattro 3x3 = 2.18x3 m
Molift Quattro 4x4 = 2.18x4 m

Product name	Internal space	Item no.	Facts
Molift Quattro 3	3x3 m	1600030	Safe Working Load: 300 kg Material: Steel, Anodized Aluminum, Plastic Expected Lifetime: 10 years
Molift Quattro 4	4x4 m	1600035	
Facts			Cleaning Clean/disinfect the product using a standard non-abrasive cleaning agent with a pH between 5 and 9, or with a 70% disinfectant solution.
Weight of unit: • Boom Kg/m: 4.2 kg/m/8.8 lbs/m • Leg with adjustable foot: 8.5 kg/18.7 lbs • Corner: 2.7kg/6 lbs • Total weight (Complete unit) (3x3 m): 110.95 kg • Total weight (Complete unit) (4x4 m): 131.55 kg
