

FAST & COMPACT
PORTABILITY

molift Smart 150 Portable Lifter

The **Molift Smart 150 Portable Lifter** is designed to be easily wheeled and transported to where lifting and moving is required. It has been awarded The Norwegian Design Council's Award for Design Excellence. The Molift Smart 150 is easy to fold for wheeling and to unfold in preparation for use. The Molift Smart 150 can also be divided into two parts, without the use of tools, to reduce the weight for transporting. The heaviest part weighs only 30 lbs/13.6 kg. The Molift Smart's lifting range makes lifting from the floor simple.

LIFTABILITY

Hard case available for travel

molift Smart 150 Portable Lifter

The standard 4 Point Suspension combined with a **Molift Rgo Sling** allows for a free and open sitting position, especially around the head area. This positioning reduces the risk of the head bumping into the suspension. The user will not swing side to side and will not feel squeezed as they may in a 2 Point Suspension. With the combination of sling and suspension, the user will slide into a natural, correct seating position, from lying to sitting and vice versa.

Features

Folds in less than 10 seconds without tools

Lifting capacity of 330lbs / 150kg

Lightweight 55lbs / 26kg

Easy to manoeuvre

Portable and mobile

Electric/manual lowering function + emergency stop

Environmentally friendly batteries

Built-in software calculates when the lifter requires servicing

No tools required

Technical Facts

Item No. 102008

Lifting capacity 330.7lbs / 150kg

Folded size 1200 x 500 x 350mm

Dimensions, assembled 1150 x 475 x 350mm

Total weight 55lbs / 26kg

Leg height Max. 110mm

Lifting height Min. 270mm Max. 1680mm

Battery NiMH 14.4V - 2.2Ah

The Molift Rgo Sling Range

Available in a variety of styles and full range of sizes

Molift Rgo Sling - medium and high back

Molift Rgo Sling Comfort - high back

Molift Rgo Sling Toilet - low and high back

Molift Rgo Sling Amputee - medium and high back
