

2 BUCKET WASHING WITH DUAL MITTS

Tools:

2 buckets, 2 grit guards, 2 wash mitts

Products:

Soap of choice

Always use 2 buckets when washing with Grit Guards placed in each bucket.

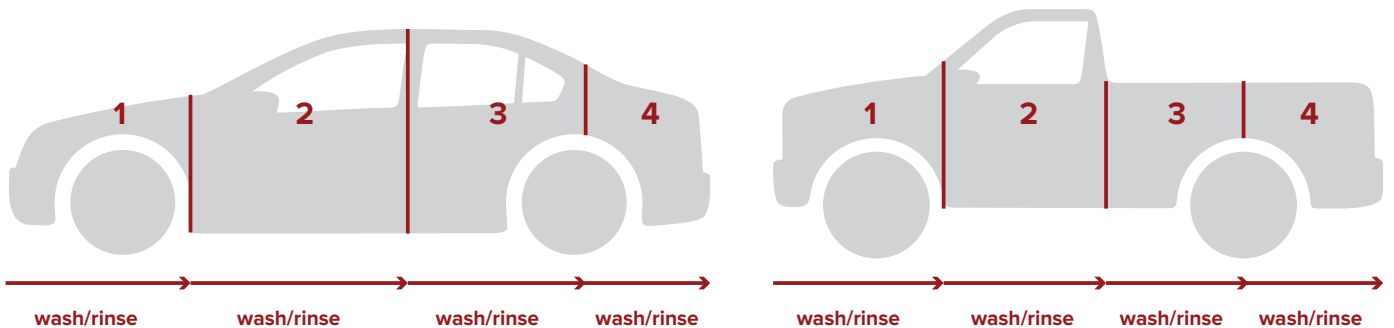

2 Bucket Method

Fill one bucket with soap (WASH bucket) and one bucket with pure water (RINSE bucket).

After washing each section, rinse mitt out in "RINSE" bucket. Dunk back into "WASH" bucket and proceed. Follow this same process as you move around the vehicle.

Example of washing sections:

Example of upper & lower sections:

Lower section:

Use *one wash mitt* for bottom 6 inches of the vehicle and inner wheel well.

Upper section:

Use *one wash mitt* for all sections of the vehicle 6 inches and above.
