

VIENNA Pendant Light

Installation Instructions

1. Position the adjustable ring at the top of the Lamp Holder.

2. Insert the Lamp Holder into the Glass Shade from the top. Thread the 3 suspension wires through the holes starting from inside the shade.

3. Use the other adjustable ring to fix the lamp holder in place. Finger tighten only.

4. The lamp holder should look like this when assembled.

5. Insert the suspension wires into the ceiling rose and adjust until you have the desired height. Leave a little slack in the electrical cable so the weight of the shade is held by the 3 suspension wires and not the cable.
