AQUATEC
EQUIPMENT

Inside

INDOOR AQUATICS RANGE

Our Vision - We create the right flow.

IT'S EXACTLY WHAT WE WANT.

Based on this approach, we act in accordance with fixed values and guidelines in cooperation with our customers, suppliers and each other - consistently focusing on the needs of our customers.

In contrast, we have the same requirements as our system and product solutions: we expect perfect fit and precision.

Water is our element.

We shape water, create living spaces with a life-giving element and improve its quality - we are constantly creating, developing, manufacturing, testing, selling and improving our portfolio with great solutions for our customers.

We never stop, as does the water around which our entire activity is built: we always look for the right flow.

For more useful and up-to-date information on OASE aquarium products and offers, call our sales team on 08 6260 1000 or email oase@aquatecequipment.com.

ScaperLine aquarium sets

An aquascape as a living work of art – we provide the framework that is coordinated down to the finest detail

⊕ **DETAILED DESIGN**

Aquascapers have given it a lot of thought and have incorporated pracrical details into the ScaperLine aquarium combination that are second to none

⊕ **FOR VIRTUALLY ANY ENVIRONMENT**

The aquascape will fit into any interior as it's available in three sizes wuith two cabinet options - black and grey

⊕ **PULL-OUT FILTER CRAWER**

The external filter can be easily cleaned with the convenient pull-out filter drawer

⊕ **CLEAN LOOK**

The cable duct on the cabinet and the specially polished glass edges ensure clear contours and give your artwork an aesthetic frame

⊕ **EASY TO MAINTAIN**

The practical magnetic tool holder in the base cabinet keeps aquascaping tools or a towel in easy reach - for easier setup and care

⊕ **CO-ORDINATED**

The aquarium and base cabinet complement each other perfectly and the tank joins seemlessly with the cabinet - with no unsightly edges

Grey option

⊕ **CONVERSION TO A ROOM DIVIDER**

The optional room divider plate, which can be mounted on the back of the cabinet, makes it possible to turn the ScaperLine into a room divider

⊕ **CABLE & HOSE FEED THROUGH**

The cable and hoswe feed-throughs on both sides, either of which can be closed up as required, ensure an organised aquarium, depending on the number of cables and hoses

1. Immaculately luminous:
Mitred glass walls create a stylish frame for your artwork

2. Function and design:
Push-to-open function and the absence of external handles ensure that the base unit and aquarium share a common, flush line.

3. Functional features:
The cable feed-through in the base unit can be optionally closed and is almost invisible.

4. Intelligent convenience:
Specially embedded magnetic points hold the scaper tools in place.

StyleLine aquarium sets

Individual aquatic style. Now for everyone

⊕ **CLASSIC CHIC**

Available in black and white

⊕ **SOPHISTICATED DESIGN**

The water and substrate line are covered to stylishly frame the view of the aquarium inhabitants and plants

⊕ **CONVENIENT**

There are one or two cut-outs on the back for cables and hoses to facilitate installation

⊕ **CLEAN & WELL-TEMPERED**

Includes BioPlus Thermo 100 or Thermo 200 internal filter with integrated heater

⊕ **MADE IN GERMANY**

Base cabinet with modern push-to-open function on the handle-free designer doors with aluminium-look feet
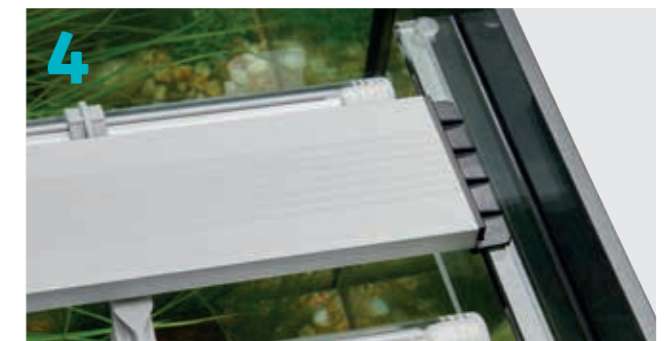

⊕ **SPACIOUS**

Plenty of storage space in the cabinet - shelf included

⊕ **WELL-PROTECTED**

The opaque sliding glass cover is stylish, practical and easy to care for

Black option

1

2

3

4

1. **Stylish and modern:**
The StyleLine aquarium can be integrated into a modern living room as desired.

2. **Keep it clean:**
The practical sliding glass cover is completely removable and easy to clean.

3. **Easy cleaning:**
The BioPlus Thermo 100/Thermo 200 corner internal filter provides a clear view of the underwater world without any disruptive equipment. Only the filter unit needs to be removed for cleaning, which makes for straightforward, time-saving aquarium care.

4. **Lighting:**
Modern, contemporary lighting: A classic LED lighting kit is already included. The optimally coordinated light spectrum (6500 Kelvin) ensures good plant growth and beautifully sets the scene for your aquarium inhabitants.

BioMaster

For the highest demands - designed in Germany

EASYCLEAN PRE-FILTER MODULE

No more annoying filter openings as the pre-filter is easily removed, cleaned and replaced

ADJUSTABLE

Control the flow on the filter or via the adapter set

OPTIMUM FILTRATION

The 45 ppi sponge in the pre-filter provides effective mechanical filtration of coarse dirt and increases the life of the biological material

**ECONOMICAL & QUIET**

Runs quietly and efficiently

PRACTICAL

Venting button for effective water suction - to get started quickly and easily during installation and after cleaning

OPTIONAL

Includes HeatUp integrated adjustable heater with BioMaster Thermo - can also be retrofitted

SAFE

The shut-off mechanism and safety lock prevent unwanted water leaks during filter cleaning

BioMaster 250

BioMaster 350

BioMaster 600

BioMaster 850

1

2

3

4
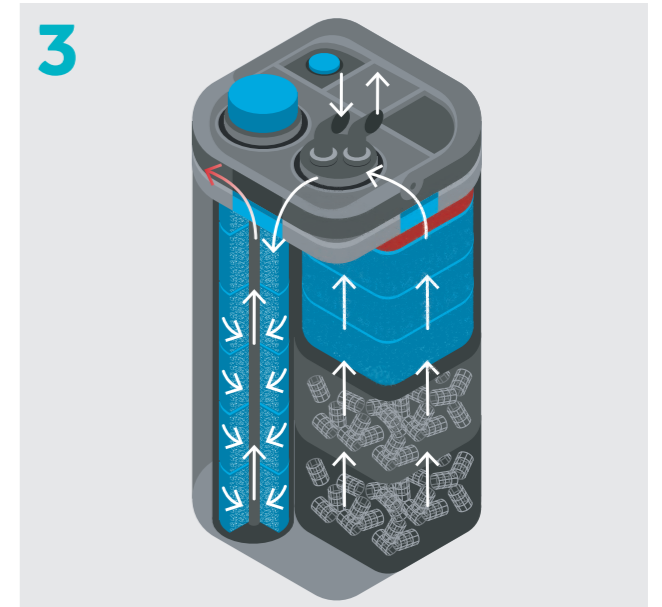

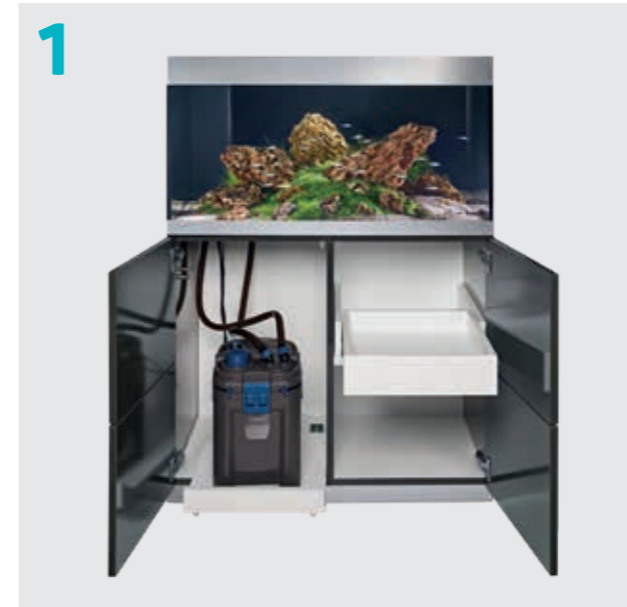

1. Pull-out filter drawer:
The external filter can be easily cleaned with the cleverly designed pull-out filter drawer.

2. Complete set for a quick start:
Including filter media, hoses, adapter, flow regulator, suction and discharge pipe as well as water diffuser.

3. High filter volume:
The combination of highly effective biological filtering with Hel-X and mechanical/biological cleaning with filter sponges is ideally coordinated to ensure healthy and clear aquarium water. The water flows through the pre-filter first, ensuring an extra long service life.

4. Top view:
BioMaster filter.

BioStyle

Modern design meets power

⊕ **TWO-STAGE FILTRATION**

Mechanical & biological cleaning

⊕ **ADAPTABLE**

Easy to install thanks to the flexible alignable spacer

⊕ **QUIET**

Pleasantly quiet in operation.

⊕ **MAINTENANCE MADE EASY**

An Indicator shows when it is time to clean or replace the filter cartridge

⊕ **VARIABLE SPEEDS**

Infinitely variable water flow rate

⊕ **FLEXIBLE**

Telescopic suction pipe

**BioStyle 75**　　　**BioStyle 115**　　　**BioStyle 180**

1. Two filter stages for optimal cleaning:

Biological and mechanical cleaning plus features that make maintenance so much easier, like the removable filter cartridge – these are just some of the benefits of the BioStyle hang-on filter.

2. Perfect fit:

The adjustable spacers ensure that the BioStyle hang-on filter fits perfectly into the aquarium. Furthermore, the transparent intake pipe is telescopic.

3. Perfect fit: Space-saving:

The BioStyle can be hung on aquariums up to glass thickness of 15 mm.

AQUATEC
EQUIPMENT

Oase

BioPlus

Well concealed and convenient to clean

⊕ **FULL POWER**

The extra-high volume filter sponges ensure effective mechanical and biological filtration. For crystal-clear water, a fine, optional filter fleece also removes any remaining particles

⊕ **ECONOMICAL & QUIET**

Extremely quiet and energy-saving pump

⊕ **OPTIONAL**

Includes HeatUp integrated adjustable heater with BioPlus Thermo - can also be retrofitted with BioPlus

⊕ **EASYCLEAN MECHANISM**

Extra-easy cleaning: The compact filter unit can be removed easily while the pump unit remains in place

⊕ **SPACE SAVING**

Can be installed discreetly in a corner

⊕ **DISCREET**

Integrated outlet nozzles instead of an impractical outlet pipe. The nozzles produce a uniform surface movement and ensure optimal oxygen enrichment

BioPlus 50   **BioPlus 100**   **BioPlus 200**

1

2   **3**

1. Flexible:
Enjoy the flexibility of switching between outlet nozzles and a water outlet for an optimally coordinated surface movement.

2. Filter media:
Filter foam can be removed on a modular basis – ideal for time-delayed, bacteria-friendly cleaning.

3. Additional filter chamber:
E.g. for a fine filter (included in the scope of delivery).

AQUATEC EQUIPMENT

CrystalSkim

For a clean aquarium surface – removing biofilm, plant debris and other floating substances

IMPROVED GAS EXCHANGE

A thick biofilm makes gas exchange more difficult - with the CrystalSkim, this situation can be significantly improved for the good of all aquarium inhabitants

INNOVATIVE SURFACE SKIMMING

Our skimmer quickly and effectively frees the aquarium surface of the aquarium from floating substances such as plant remains and biofilm

LONG SERVICE INTERVALS

The floating ring ensures a long service life without having to refill water

HIGH SAFETY

A integrated collection basket ensures the safety of the aquarium inhabitants by making sure they can never get into the skimmer. This can also be removed if desired

AFTER PLANT TRIMMING

After aquarium plants are trimmed, the skimmer conveniently catches even the finest plant fragments, which are easy to miss with a net

ADJUSTABLE

The powerful motor is individually adjustable and ensures a crystal clear water surface at just the right output

COMPACT & DISCREET

The discreet, compact and modern design of the skimmer lets it fade into the background

CrystalSkim 350

CrystalSkim 600

1. Less refilling:
The floating ring adjusts to the water level. For more safety and cleanliness over a long period of time.

2. Firm hold:
Two practical suction holders fix the CrystalSkim securely to the pane and at the same time allow it to be removed quickly for maintenance. The fastening system is largely transparent and unobtrusive.

3. Variable currents:
The stepless adjustment of the water flow enables different flow strengths, which you can intuitively vary directly on the swim ring.

4. No way through:
Do you have particularly small inhabitants in your aquarium? The protective grille can simply be installed in the skimmer to protect smaller animals.

¨Patent granted in Germany, France, Great Britain, Italy and USA

Digital Thermometer

Ideal temperature at all times

FEATURES

With the digital thermometer, the temperature in the aquarium can be conveniently read at any time. The 6 cm wide thermometer can simply be glued to the outside of the aquarium wall.

It measures the water temperature very accurately and is easy to read thanks to the large digital display.

TECHNICAL DATA

Product	Dimensions (L x W x H)	Net weight	Product Code
	mm	kg	
Digital thermometer	60 x 18 x 48	0.03	08OA060

Water is
our element.

AQUATEC EQUIPMENT

Oase

OptiMax

Strong above and below water

⊕ **POWERFUL & ECONOMICAL**

Excellent energy balance: low power consumption with high pump output

⊕ **INSTALLATION SITE**

For installation under water within the aquarium or in dry conditions

⊕ **RELIABLE**

Extremely powerful and reliable in continuous use

TECHNICAL DATA

Rated voltage		230 V / 50 Hz
Power cable length	m	1.50
Guarantee *	Years	3
Pressure-side connection		-
Pressure-side connection	mm	17
Suitable for freshwater		Yes
Suitable for saltwater		
Setup type		Can be set up underwater & dry installed

⊕ **ADJUSTABLE**

The water flow rate can be easily and continuously adjusted

⊕ **EASY TO MOUNT**

Two practical suction holders for mounting at the desired location

Product	Dimensions (L x W x H)	Power consumption	Net weight	Max. flow rate	Max. head height, metres	Suction-side connection	Suction-side connection	Product Code
	mm	W	kg	l/h	m		mm	
OptiMax 1000	77 x 52 x 80	12	0.37	1000	1.30	-	19	08OA002
OptiMax 3000	140 x 95 x 136	55	1.23	2800	3.00	G 1"	17	08OA003
OptiMax 5000		82	1.22	5000				08OA004

*Guarantee valid under the guarantee conditions from OASE.

OptiMax

Small but powerful

⊕ **COMPACT**

The OptiMax 300 is particularly space-saving and easy to conceal

⊕ **EFFICIENT**

High pump capacity in a compact size

⊕ **MOVEMENT**

Perfect for efficient water circulation or for the operation of an aquarium filter

⊕ **INSTALLATION SITE**

For installation under water, within the aquarium

⊕ **EASY TO MOUNT**

Two practical suction holders for mounting at the desired location

⊕ **EASY TO ADJUST**

The water flow rate can be easily adjusted

TECHNICAL DATA

Dimensions (L x W x H)	mm	55 x 42 x 60

AQUATEC
EQUIPMENT

OxyMax

Oxygen for aquarium inhabitants and plants

⊕ **INDIVIDUALITY**

The pattern of bubbles can be adjusted on the air vent

⊕ **FLEXIBLE**

Standing or hanging installation possible, especially space-saving and easy to control

⊕ **QUIET**

Pleasantly low level of operating noise

⊕ **INFINITELY ADJUSTABLE**

The amount of air released can be easily adjusted

⊕ **RELIABLE**

Constant oxygen supply

⊕ **UP AND RUNNING IN NO TIME**

Complete set for quick connection, including hose and air vent

OxyMax 200

TECHNICAL DATA

Dimensions (L x W x H)	mm	150 x 90 x 70
Rated voltage		230 V / 50 Hz
Power cable length	m	1.60
Guarantee*	Years	3
Connection for hoses ø (inner/outer)		4 / 6 mm
Protection class		IP X4
Suitable for freshwater		Yes
Suitable for saltwater

AQUATEC
EQUIPMENT

Oase

FishGuard

Optimum supply 24 hours a day

⊕ **SUITABLE FOR ALL**

Suitable for freshwater and saltwater tanks and terrariums

⊕ **OPTIMUM PROTECTION**

A sophisticated mechanism with a special seal protects the food against moisture

⊕ **12 PROGRAMMABLE FEED LOADS**

Perfect for large aquariums with lots of fish. Programme up to four feeds a day with a maximum of three doses per feed

⊕ **STRAIGHT FORWARD**

Especially easy to program thanks to clear LCD display

⊕ **FLEXIBLE MOUNTING**

Optional bracket available for mounting on the glass edge for open aquariums or terrariums

ACCESSORIES

| Description	Product details	Product Code
Bracket FishGuard	The FishGuard bracket is an optional addition to the automatic feeder. In open aquariums or terrariums, the feeder can be easily attached to the outside wall.	08OA062
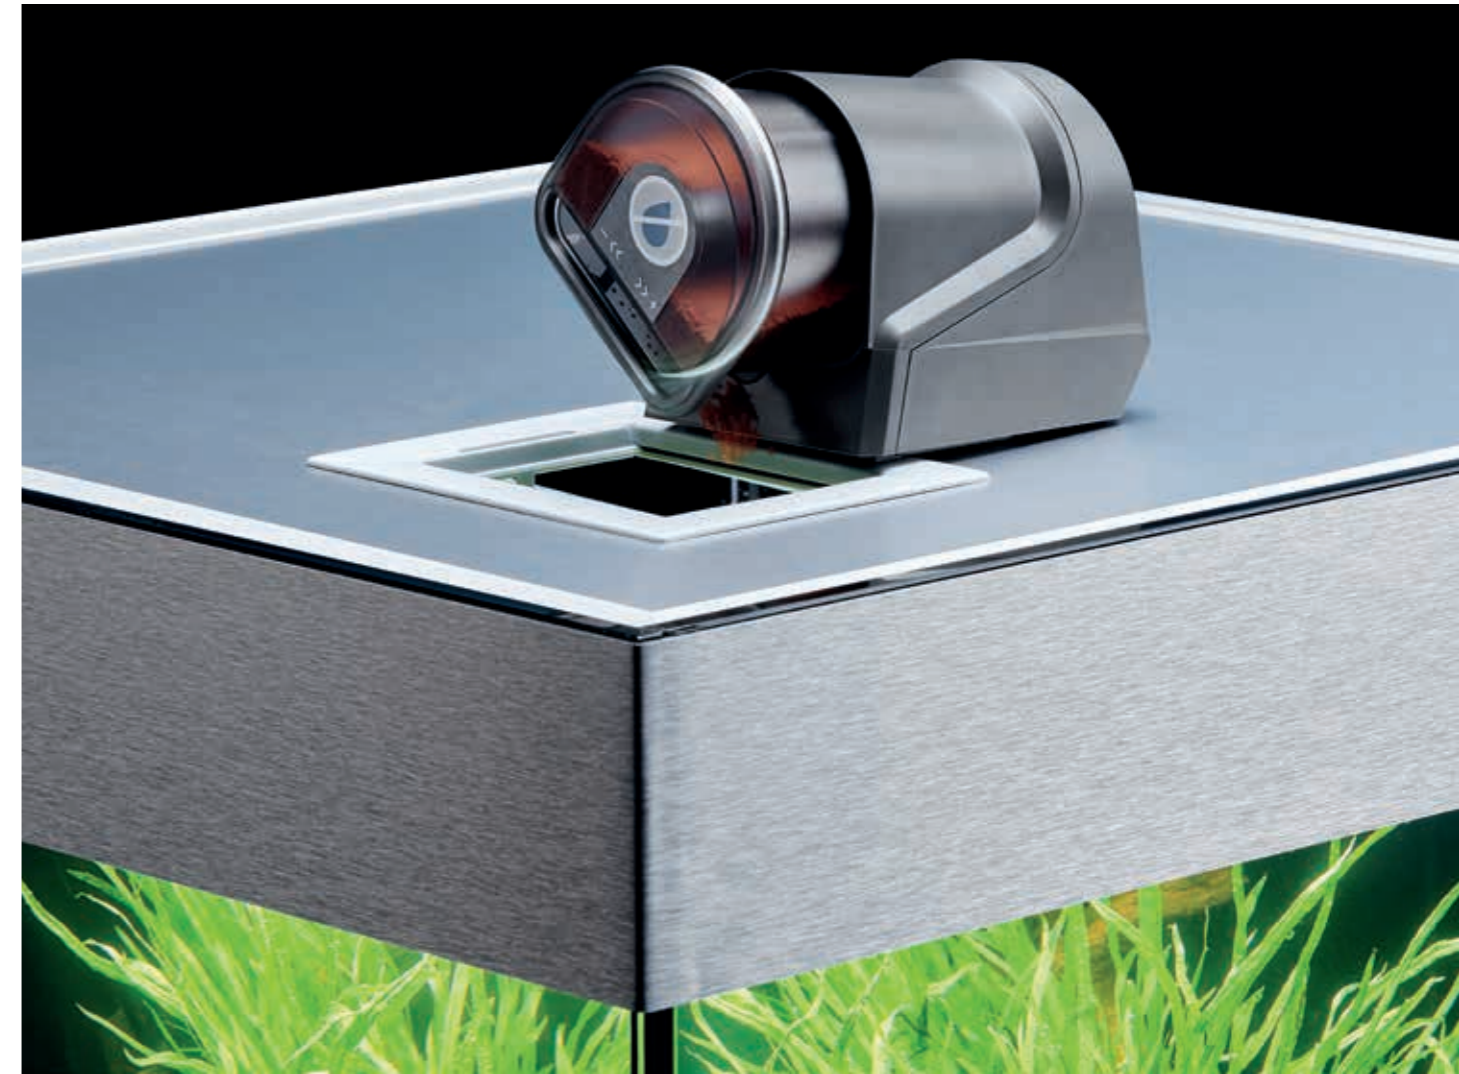

TECHNICAL DATA

| Product		FishGuard	Product Code
Dimensions (L x W x H)	mm	120 x 78 x 93	08OA061
Battery (not included)		4 x 1.5 V AA	
Net weight	kg	0.20	
Guarantee *	Years	3	
Suitable for food content up to max.	cm³	125	
Suitable for freshwater		Yes	
Suitable for saltwater			

*Guarantee valid under the guarantee conditions from OASE.

CRITERIA FOR SELECTING THE RIGHT AQUARIUM
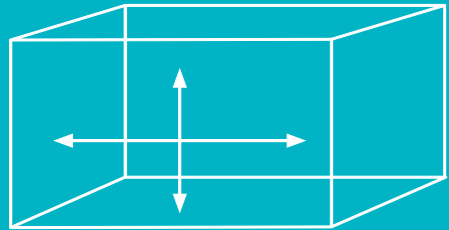

Size

In general, the larger the better, because larger aquariums create better living conditions for aquarium inhabitants and plants. This makes it easier to maintain the biological balance in the aquarium.
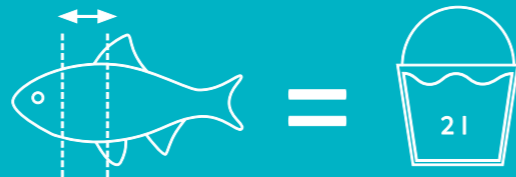

Fish Stock

The following general guideline applies: provide two litres of water for every one centimetre of fish length. Be sure to ask your specialist dealer for advice when choosing the size of your aquarium, inhabitants and plants – you can only create a well-functioning habitat with healthy inhabitants that you can enjoy for a long time to come if all factors are perfectly coordinated.

Weight

Do not underestimate the weight of a filled, planted aquarium. The load-bearing capacity of the floor is the most important aspect when choosing the location. You can calculate the weight of the water in the aquarium as follows: height x width x depth in cm/1000. You must also add the weight of the glass aquarium, the furnishings and the technology.

Location

It is important to avoid direct sunlight as this promotes the growth of algae in the aquarium. In addition, the less the aquarium inhabitants are exposed to vibrations and disturbances caused by doors opening and closing or people walking past, the better. The best location is a corner of the room where you have a good view of your underwater world. You should also keep the aquarium away from heat sources to prevent the aquarium from being exposed to fluctuating temperatures.
