

# BK-G4 - Summary Sheet

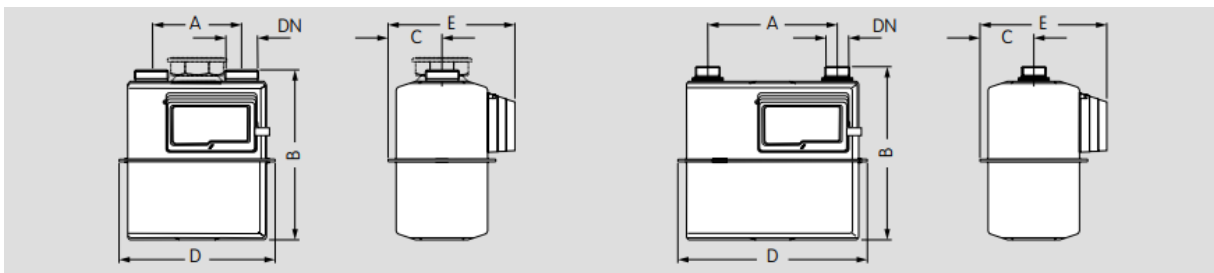

## Summary

The residential diaphragm gas meters BK-Type meet the highest demands with respect to accuracy of measurement and safety. It incorporates both innovative features and gas measurement know-how of many decades. The BK-Type meters are supplied in a two-pipe version.

This can be paired with an EMA1 [Topup](#) Meter allowing you to run both gas and electric in prepayment. All that is required is an Atex gas sender fitted to the gas meter. This will then communicate with the EMA1 [Topup](#) meter allowing both electricity and gas to be charged. Click [here](#) for more info
