

MX-100 STUDIO CONDENSER MICROPHONE WITH DESKTOP TRIPOD STAND

Features

- The MX-100 condenser microphone provides smooth, extended frequency response and is excellent for studio quality vocals, speech and acoustic instruments.
- The MX-100's Uni-Directional, Cardioid Polar Pattern delivers high-sensitivity, low-noise and a wide dynamic output.
- A Professional Suspension Shockmount isolates the studio condenser mic reducing physical vibrations from the mic stand or desktop surface; It also features an angle adjustment with locking knob.
- Portable, Foldable, Stable and Non-slip Tripod Stand - Made of stainless steel with 3/8" threaded mount and 5/8" adapter; non-slip rubberized feet and folding legs.
- The MX100 requires & is compatible with +48 Volt phantom powered audio mixers & Audio interfaces for your computer.

Specifications

- Type: Condenser
- Pickup: Cardioid Uni-Directional
- Frequency Response: 30Hz ~ 20kHz
- Sensitivity: -38dB (± 2 dB)(0dB=1V/Pa @1kHz)
- Output Impedance: 250 ohms, ($\pm 30\%$)@1kHz
- Dynamic Range: 140dB
- ENL: 18dB A
- Max. Sound Pressure: 15dB (@1kHz $\geq 1\%$ T.H.D.)
- S/N: 76dB
- Requires +48 Volt Phantom Power
- Power Consumption: 3Ma/hr
- Weight: 0.77Lbs (350g)

PACKAGE INCLUDES

EASY TO ASSEMBLE

ACCESSABLES HEALTH, SAFETY, AND COMPLIANCE GUIDE

Safety Warnings and Instructions

Electrical information warning symbols for AccessAbles products are located on the electrical panel of the unit adjacent to the electrical plug or bottom of the unit along with other product compliance information.

The lightning flash with arrowhead symbol within an equilateral triangle is intended to alert the user to the presence of non-insulated "dangerous volatage" within the product's enclosure that may be sufficient magnitude to constitute and electric shock.

Radio and Television Interference

If these symbols are marked on the product, the device complies as follows:
Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

USA: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy, and, if not installed in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

CAUTION: Changes or modifications to this device not expressly approved by AccessAbles Electronics could void the user's authority to operate the equipment under FCC rules.

WARNING: TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE COVER (OR BACK) AS THERE ARE NO USER-SERVICABLE PARTS INSIDE. REFER SERVICING TO QUALIFIED PERSONNEL.

The exclamation point with arrowhead symbol within an equilateral triangle is intended to alert the user to the presence of non-insulated "dangerous volatage" within the product's enclosure that may be sufficient magnitude to constitute and electric shock.

CAUTION: To reduce the risk of electrical shock, do not expose this device to rain and moisture. Do not expose this device to dripping or splashing liquids, such as vases, should be placed on the device.

CAUTION: This service instructions are for use by qualified personnel only. To reduce the risk of electric shock, do not perform any servicing other than that contained in the operating instructions. Qualified service personnel must perform repairs.

CALIFORNIA PROP65 WARNING:

Warning: This product contains chemicals, including lead, known to the State of California to cause cancer and birth defects or other reproductive harm. Wash hands after handling.
