### ASK ABOUT OUR GLACIER AO<sub>3</sub>P FILTRATION SYSTEM

- The Alberta GL Hot Tub, exclusive to the Great Lakes Series, fits 6 people comfortably and includes 55 adjustable hydrotherapy jets. It features a filtering ozone system, LED lights and Blackout insulation – made for Canadian Winters.
- Offers multi-level seating to accommodate all sizes, while offering spacious leg room for all your friends and family to enjoy! It features a full-length no-float lounger, 2 deep captains chairs & and bench seating to target hard-to-reach areas!
- Features air control valves, and 55 adjustable and interchangeable hydrotherapy jets, both directional and massage - allowing you to create your own customizable experience.
- Our Blackout insulation features high-density closed cell foam and a heat retention blanket surrounding the interior, providing your hot tub with insulation that traps and retains heat
- Includes three 2 speed 5HP(16.4A) pumps with an oversized 2.5" intake, ensuring you receive strong, consistent, jet pressure. The 5.5kW heater will keep your spa heated through the harsh winter season
- The Glacier filtration system combines silver ions and antimicrobial materials along with an Ozone Generator to fight bacteria growth and clean your water. Includes an upgraded UV filtering system
- When you buy a Great Lakes hot tub, you can sleep easy knowing that it comes with valuable customer and technical support for the lifetime of the spa.
