ASK ABOUT OUR GLACIER AO₃P FILTRATION SYSTEM

- The Erie SE Hot Tub, exclusive to the Great Lakes Series, fits 6 people comfortably and includes 46 adjustable hydrotherapy jets. It features a filtering ozone system, LED lights and Blackout insulation – made for Canadian Winters.
- Offers multi-level seating to accommodate all individuals and target hard to reach areas. It features a full-length no-float lounger, 2 deep captain chairs packed with jets & a large footwell for everyone to enjoy a massage.
- Features air control valves, and 46 adjustable and interchangeable hydrotherapy jets, both directional and massage - allowing you to create your own customizable experience.
- Our Blackout insulation features high-density closed cell foam and a heat retention blanket surrounding the interior, providing your hot tub with insulation that traps and retains heat
- Includes two 2 speed 5HP(16.4A) pumps with an oversized 2.5" intake, ensuring you receive strong, consistent, jet pressure. The 5.5kW heater will keep your spa heated through the harsh winter season
- The Glacier filtration system combines silver ions and antimicrobial materials along with an Ozone Generator to fight bacteria growth and clean your water. Includes an upgraded UV filtering system
- When you buy a Great Lakes hot tub, you can sleep easy knowing that it comes with valuable customer and technical support for the lifetime of the spa.
