**ASK ABOUT OUR
GLACIER AO₃P
FILTRATION SYSTEM**

- The Kelowna Plug & Play, exclusive to the Great Lakes Series, has seating for 4, includes a double-lounger and comes with 20 adjustable hydrotherapy jets. It features a filtering ozone system, LED lights and Blackout insulation – made for Canadian Winters.
- Provides various seating depths so that everyone can enjoy the spa comfortably. Includes 2 spacious seats and a double lounger, allowing full control in how you use the spa.
- Features air control valves, and 20 adjustable and interchangeable hydrotherapy jets, both directional and massage - allowing you to create your own customizable experience.
- Our Blackout insulation features high-density closed cell foam and a heat retention blanket surrounding the interior, providing your hot tub with insulation that traps and retains heat
- Includes a 2 speed 2 HP pump with an oversized 2.5" intake, ensuring you receive strong, consistent, jet pressure. The 1.5kW heater will keep your spa heated throughout the harsh winter season
- The Glacier filtration system combines silver ions and antimicrobial materials along with an Ozone Generator to fight bacteria growth and clean your water. Includes an upgraded UV filtering system
- When you buy a Great Lakes hot tub, you can sleep easy knowing that it comes with valuable customer and technical support for the lifetime of the spa.
