

Since 1905

In celebration of la Pavoni's 100 years producing the finest espresso/cappuccino makers we are excited to introduce the Stradivari.

PSW-16

**PSW-16** The 16 cup model, 38 oz. boiler capacity  
Chrome with wood accents, 12" high, 16 lbs.

This model represents the third collaboration between la Pavoni and industrial designer Carlo Gallizi. *The design inspiration was drawn from the works of world famous violin maker Antonio Stradivari.*

The fluid sweeping motion of the lever accentuates the subtle curves of the base. The power button is recessed for a clean appearance. Available in two boiler capacities, either 8-cup or 16-cup and two trim levels featuring black ABS plastic or solid rosewood handles and knobs. All units come standard with 2 stainless steel coffee baskets allowing you to make one or two cups at a time. Each machine comes standard with two interchangeable frothing systems, a plated steam wand and a Cappuccino Automatic devise as pictured on page 21.

**ESW-8** The 8 cup model  
20 oz. boiler capacity  
Chrome with wood accents  
12" high, 14 lbs.

**DROP-SHIPPING AVAILABLE ON ALL PRODUCTS**
