

Some people report that within the initial first few days after installing the C1, they feel low in energy or tired. This is a harmless transient condition and will pass. This is the body adapting to a new environment. Persist with this until it passes. Older persons who have poor health may take longer to adapt, this is a normal process as the body adapts to a new environment.

The C1 does not remove EMF nor does it modify EMF. Using an EMF meter will not indicate any change in the environment.

After you install the C1 the numbers on any EMF meter will not alter, as their sole purpose is to measure electro-magnetic fields.

C1 DOES NOT interfere with wireless devices  
 C1 DOES NOT block any mobile phone or Wi-Fi signals  
 C1 DOES NOT interfere with pacemaker use  
 C1 DOES NOT cause electronic devices to stop working

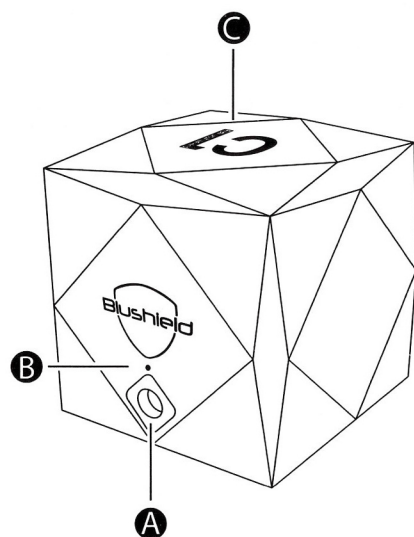

The C1 is strictly for interior use only. It carries a warranty for a period of one year. This covers factory defects or faults. The warranty does not cover misuse, modification, neglect (water damage) or opening of the case. The warranty does not cover wear and tear on the power plug cord.

If a claim is made all postage costs are to be covered by the customer. A Blushield distributor will decide whether to repair or replace the product depending upon the fault.

**CAUTION RISK OF ELECTRIC SHOCK:** For interior use only. Do not use in damp or humid areas.

# Quick Start Guide

## Ultimate Series C1 5G Protection

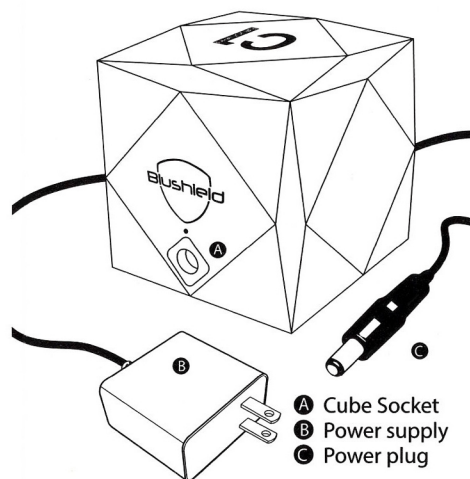

- A** Cube socket
- B** LED indicator light
- C** Logo

Using the included power supply, select a suitable place to plug in the C1. Preferably plug the C1 in a central area within your home or office. Only use the included power supply as other third party power supplies may be the wrong voltage or polarity, potentially damaging the C1 beyond repair. Using incorrect power supplies will void the warranty.

- DO NOT place the Cube in damp areas or bathrooms as there may be a risk of electric shock
- DO NOT use force to insert the power plug into the socket
- DO NOT attempt to modify or open the case, this will void warranty and you may risk electric shock
- DO NOT try to charge the unit as it does not contain any battery
- DO NOT place the C1 on an unstable surface

AIRPLANE SAFE  
 WI-FI SAFE  
 MOBILE SAFE  
 AUTOMOBILE SAFE  
 5G SAFE

Place out of reach of young children, keep the power cord tucked away to avoid children pulling on it or household pets from chewing on the wire. There is a risk of electric shock if the cord is broken.

- A** Cube Socket
- B** Power supply
- C** Power plug

Once the power plug is inserted you will observe the LED indicator light up blue.

If you fail to see a small blue light at the hole make sure the power supply is turned on at the wall, and check that the power plug is firmly in the socket. Do not force the plug.
