A1 "This is a huge step in the right direction"

AUDIO SYSTEMS

Pro-Ject

- Very nice quick-startup guide.
- Overall **good build quality.**
- This is a **huge step** in the **right direction**.
- The phonocable is very nice.
- If one is looking for a fully automatic turntable, **this is about the only game in town.**
- It sounds great.
- Binge-listen with your new Pro-Ject fully automatic turntable and fill your soul with happiness.

 I think the automatic funtionality is awesome.
