

Speaker Box 5

03.2022

"A hidden gem – a leader in this price category"

- To see **standard paint** at this price, **no up-charge, 3 color options** took me by **surprise**.
- They can **fill up a room shockingly well**.
- These speakers **sound very matter of fact**.
- There's a **ton of air and a ton of separation, nice decay and big open sound**.
- The **top end is very enjoyable – never too harsh or aggressive**.
- Female vocal performance was **out of this world** – on par with what I'd **expect from speakers for 1000\$** a pair – **best I've heard** in this category.
- **Separation was outstanding** – the **most enjoyable** characteristic of this speaker – regardless of price.

- A compact speaker with **imaging, female vocal performance and good looks** – **this is about as good as you can do**.
