

## High Power-it

11.2021

**"large sonic improvements"**

**Watch the Video**

- The High power-it **added plenty of confidence** principally in and **around the bass region**.
- Everyone on the test tracks sounded like they knew what they were doing – they were going about everything with **conviction and certainty**.
- The **sonic improvements** based on the price are **pretty large indeed**.
- **Bass** was broad in its presentation – it **sounded full but also controlled and focused**.
