

Operating Instructions

FIG. A

Important: Turn dial slowly and evenly. Do not turn back to regain alignment if you rotate past number. If an error is made, re-dial entire combination. Do not count turns. Count how many times each number is aligned with the opening index (at the 12 o'clock position). Always view the dial and ring straight on, not at an angle.

To Open: (Refer to Figure A):

Step 1: Turn dial left, aligning first number with the opening index the fourth time it comes to the index.

Step 2: Turn dial right, aligning second number with the opening index the third time it comes to the index.

Step 3: Turn dial left, aligning third number with the opening index the second time it comes to the index.

Step 4: Turn dial right until dial comes to a complete stop.

Step 5: To relock and secure the combination lock, turn the dial to the left at least four revolutions.
