WARRANTY

One year against manufacturer defect.

Westcott's warranty obligations for this product are limited to the terms set forth below: The F.J. Westcott Co. ("Westcott") warrants this Westcott branded product against defects in materials and workmanship under normal use for a period of ONE (1) YEAR from the date of retail purchase by the original end-user purchaser ("Warranty Period"). If a defect arises and a valid claim is received within the Warranty Period, at its option and to the extent permitted by law, Westcott will either (1) repair the defect at no charge, using new or refurbished replacement parts, or (2) exchange the product with a product that is new or which has been manufactured from new or serviceable used parts and is at least functionally equivalent to the original product. This Limited Warranty applies only to products manufactured by or for Westcott that can be identified by the "Westcott" trademark, trade name, or logo affixed to them.

This warranty does not apply: (a) to damage caused by accident, abuse, misuse, flood, fire, earthquake or other external causes; (b) to damage caused by operating the product outside the permitted or intended uses described by Westcott; (c) to a product or part that has been modified to alter functionality or capability without the written permission of Westcott.

Please contact Westcott's Repair Department for a Return Authorization Number "RMA" prior to requesting warranty service. This RMA must be clearly written on the outside of the box to the left of the shipping label. Items sent in without pre-authorization or that do not fall under the ONE (1) YEAR limited warranty will be returned at the expense of the sender.

Orb Grid**
#2472

**16" x 30" Apollo™
Strip Grid**
#2473

SETUP & USAGE

SMART DESIGN

The Apollo Grid is uniquely designed with detached corners. Once the grid is attached to the Apollo, this feature allows you to quickly adjust positioning to provide a more taught and secure fit.

SETUP

1. When using the grid with the front diffusion panel, attach the diffusion panel first, placing it as far back on the loop tape as possible. This will ensure sufficient room is available to attach the grid.
2. Remove grid from protective carry case.
3. Open by fanning it out in all directions until it forms the shape of your Apollo.
4. Starting at the top of your Apollo, secure the grid in place using the hook-and-loop tape. Start in the middle and work your way towards the right and left side.
5. Repeat Step 3 on the remaining sides.
6. Once attached, adjust the corners to pull the grid taught.

USAGE

A grid is an essential accessory for any lighting system. It's purpose is to limit the light spread to 40-degrees, while altering the shape and intensity of the light output.

ORIGINAL 28" APOLLO OWNERS

If your 28" Apollo is older than one year, you may have the original model that has a fixed front diffusion panel. This model requires modifications in order for grids to attach that may void manufacturer warranty.
