USB-C Port

Wireless Signal Indicator

Battery Indicator*

Group Indicator

Channel Indicator (1-19)

Descend/Ascend through options

Set | Power Button

Hinged 3.5mm Sync Plug

On reverse side.

**Visible while charging and low battery.*

Charging

1. Locate the USB-C port on the FJ-XR.
2. Plug a compatible USB-A to USB-C cable into the FJ-XR.
3. Plug the opposing end of the cable into any USB-A 5V power source.
4. The estimated charging time is 60 minutes.
5. The FJ-XR is fully charged when the battery indicator stops blinking.

Power

- Power On: Long press and hold the **Set | Power** button for 3 seconds until the screen illuminates.
- Power Off: Long press and hold the **Set | Power** button for 3 seconds until the screen turns off.

3.5mm Sync Port Mounting

1. Gently pull the silver hinged sync plug up from the FJ-XR body. *Do not overextend.*
2. While securely holding both sides of FJ-XR, gently insert the FJ-XR sync plug into any strobe/flash 3.5mm sync port.
3. Ensure the FJ-XR sync plug is fully inserted into the sync port. *Do not force plug.*

Selecting a Channel & Group

1. Select a channel value by quick pressing the **Set | Power** button from the Main Menu screen until the Channel [CH] icon and number begin to flash.
2. Quick press the “-” or “+” buttons repeatedly to change the value (1-19) to match the Channel number selected on the FJ-X2m Wireless Trigger.
3. Quick press the **Set | Power** button to confirm Channel value and initiate changing the Group [GR] value.
4. Quick press the “-” or “+” repeatedly to change the numerical value to match the Group number selected on the FJ-X2m Wireless Trigger.
5. Quick press the **Set | Power** button to confirm Group value.

Warning

- Keep away from fire, water, and moisture. Do not submerge in water.
- Avoid drastic temperature changes before, during, and/or after use.
- Do not attempt to modify any Westcott products. Contact Westcott for assistance.
- The maximum operating temperature is 32-104°F (0-40°C).
