

## Price List

Featuring Combi-steam enamel.

Effective as of 1<sup>ST</sup> September 2023

### Handmade Italian craftsmanship since 1922.

The story of Steel is a family story. It starts in 1922, when Angelo Po - a real industry pioneer - started his artisanal steel-working business with his first wood-fired cooking stoves, gradually achieving success with leading-edge models for restaurants.

In 1999, the Po brothers and sisters decided to set up a new activity in the footsteps of their grandfather. Their inspired idea was to transfer the technology and the know-how acquired in the production of professional kitchens to the domestic market. Today, Steel does not only produce a wide range of steel cooking appliances with high-end functionalities: Steel designs ideas and realises solutions. The Steel of 2022 is the result of a hundred years of passion and experience in the industry, handed down from father to son for four generations.

# Features

### TFT Controls

Easy to use, clear large text and easy to programme. Controlled by the knobs on the front so the screen always stays clear.

### Patented INNVENT Twin Fan System

The new anniversary range features a STEEL patented twin fan system. This system has two counter rotating fans that draw air in behind the rear oven panel and distribute it back into the oven using a perimetrical air flow for the ultimate in even cooking.

### 37 Built in recipes

The Anniversary range of Genesi & Ascot feature an easy use TFT control panel, with full colour pictures of 37 built-in recipes such as Roast Chicken, Paper bag fish, Breads, Roast Veal, apple pie, pizza and even donuts!

### Brass Burners

STEEL and Sabaf, the largest manufacturer of gas burners, have developed their own burner design. The burners rings are made completely of brass, the burner caps are coated in a high-quality enamel. These burners boast a 60% efficiency compared to the industry standard of 50%.

### Temperature Probe

New design, precision probe. Not just for meat, with 4 sensors, this probe is sensitive enough to be used for cakes, steaming, meats, and baking. Accurate to 2 degrees.

### Oven Timer Programming

The oven controls allow for programming the start time, cooking duration time, and end time (example – to be ready at 6 p.m, for 2 hours cooking time, the oven will automatically start at 4 p.m.) and you can delay the start time also (example - oven to start at 5pm).

### Dynamic Oven Lighting

3 internal oven lamps strategically located to give clear and crisp internal lighting. Easy to check the progress during cooking without opening the door.

### Commercial Style Oven Fittings

Anniversary range cookers feature the new heavy duty commercial grade trays, liners and telescopic racks that will never bow or twist even when using cast iron pans and trays. Made from easy to clean, high grade, 6mm thick 304 grade stainless steel.

“COLOUR IS A POWER, WHICH DIRECTLY INFLUENCES THE SOUL.”
