**Acrylic mechanical keyboard
User Manual**

Product Feature

- Keyboard made of Polymeric Methyl Methacrylate by CNC technics.
- TYPE C USB 3.1 interface, transfer rate 40Gbps.
- TFlash storage memory to save the last setup automatically.
- Many cool light effect modes for choice, RGB color for reach
- combination, customized color as your favor.Immersion Gold FR-4 PCB technic.
- Attachable USB cable for concise acceptanc and easily carry.

Package contents

- K-61 glazed colorful keyboard 1 pcs
- TYPE C cable 1 pcs
- User manual
- Switch puller and key puller

Model: K-61 / K-61PRO / SK-61

Technical specification

Working Voltage :	5V	Working Current :	≤350mA
Model Weight:	500g	Model Size :	300*110*30mm

Function Illustration

FN+ W/A/S/D	↑ /← / ↓ /→	FN + >	Volume Up
FN + 1~0	F1~F12	FN+<	Volume Down
FN + P / [/] / M	PRINT / INS/ DEL/MUTE		
FN + ;	Increase brightness from OFF-33%-66%-100%, default 100%		
FN+´	Decrease brightness from OFF-33%-66%-100%, default 100%		
FN+Backspace	Press and hold for 3 seconds to restore factory settings		
FN + CTRL Right	Change the keyboard backlit effects, total 18 types light effects.		
FN + CTRL Left	Control the side light effects (default dynamic rim RGB light).		
FN + Space	Activate color palette to display various colors on each key, press on the desired color, all the keys will automatically change to match.		

★ More function and LED backlight settinghs,please download or update the driver from the following website: https://www.xvxchannel.com （Backlight settinghs is suitable for WIN system.）
