

STAINLESS STEEL CAN COOLERS

DESIGN

Only use the **DESIGN** layer for your design (see in the layers panel). This layer is marked **GREEN**.

PLEASE DO NOT MODIFY THE OTHER LAYERS!

BEFORE YOU FINISH

Make sure that all text fonts are **OUTLINED**. If not please supply us with your fonts.
Make sure that all images are embedded.

GUIDES

The **GREEN** line is the **PRINT SAFE AREA**. Keep the important stuff inside this.

The **MAGENTA** line is the **DIE-LINE**. This is the printable area. Ensure your design is inside this line.

The **CYAN** line is the **BLEED** line. Make sure all your photos/solid colours **COVER** this area. This is for small variances when printing.

To Preview the design, click the **PREVIEW** layer eye in the layers panel. Be sure to un-click the eye on the guides layer.

PRINT

Please convert all colours to **CMYK** values. If you have a colour that needs matching, we will do our best to match it. However we are NOT responsible for any differences in colour.

OPTIONS

We can print **VARIABLE DATA** such as sequential numbers, bar-codes, QR codes and unique names. If you are interested in this option Please email us for more information.
