TECHNICAL DATA SHEET

AGROLUBE 10W30 UTTO ULTRA+

AGROLUBE 10W30 UTTO ULTRA+ is a special quality lubricant for the gearboxes, differentials, hydraulic systems and oil-immersed brakes of tractors, agricultural machinery and public works equipment. It has been especially developed to solve the noise and vibration problem in oil-immersed brakes. It is also recommended for lubrication of the CVT transmission of the latest generation.

- Extreme pressure properties adapted to loaded gears.
- High anti-wear power.
- Special friction properties for oil-immersed brakes and clutches.
- Very high viscosity index.
- Resistance to rust and corrosion.
- Anti-foam, anti-rust.
- Excellent compatibility with gaskets.
- Very low freezing point.
- Correct fluidity that allows improved performance of the hydraulic circuit at low temperature.
- Excellent operation of oil-immersed brakes and clutches, thereby achieving:
 - Braking efficiency
 - Delayed wear of disks
- Reduced wear of gears and of elements of the hydraulic system.
- Effective protection during periods of inactivity.
- Simplified lubrication.
