

GTS-30 AIR REPAIR

GLOBAL RACING OIL GTS-30 AIR REPAIR is a product specially developed for puncture self-repair in all types of motorcycle tyres (with or without inner tubes).

An essential spray for all types of motorcycle specialities, whether Enduro, Cross, Trail or Road. It offers a total guarantee based on the synthetic composition of the liquid rubber, which swells automatically in the wheel's air chamber and provides a perfect seal.

GTS-30 AIR REPAIR has the following properties:

- ❖ It comes in the spray form and easy to apply.
- ❖ Lower risk of stinging.
- ❖ Better safety on any kind of trips.
- ❖ Reduced dimension, which makes possible its storage at any side of the motorcar or of the crew.
- ❖ It doesn't attack any kind of material.
- ❖ It regulates the air in the chamber (self-support).

PACKAGE: 200 ml
