# PRODUCT TECHNICAL DATA SHEET

## GXS 0W30

***GXS 0W30 is a synthetic motor oil especially formulated to exceed the compatibility requirements for the gas treatment systems of all manufacturers, including both three-way catalytic converters (TCW) and particle filters (DPF or FAP). GXS 0W30 extends the life of these systems and ensures that their performance is optimum.***

### Applications:

Recommended for all kinds of high-performance and latest-generation gasoline and diesel engines. It offers optimum lubrication at high and low temperatures, with highly reduced engine wear due to the rapid supply of oil to lubrication points.

### Properties and advantages:

- Very long time between oil changes.
- Excellent detergent, dispersant and anti-wear properties.
- It provides extraordinary reduction of friction between parts, as well as reduced oxidation and corrosion, thereby allowing considerable fuel savings and therefore decreased CO2 emissions.
- It facilitates cold starts and maintains part protection, even at very high operating temperatures.

### Quality level

API Service SN  
ACEA C2/C3

Complies with these standards: MB 229,31/229,51/229,52; VOLVO VCC RBSO-2AE; VW 502,00/505,00/505,01; BMW LONG LIFE 04; PORSCHE; GM DEXOS 2; WSS-M2C948-B; ST JLR 05.500

### Technical characteristics:

SAE viscosity	0W30
Density at 15° C	0.87 g/cm <sup>3</sup>
Viscosity at 40° C	57 cSt
Viscosity at 100° C	11.3 cSt
Viscosity index	195
Flash point	210° C
Freezing point	-51° C
Minimum TBN	9.5

*The stated characteristics represent typical values.*
