Experience the perfect blend of style, comfort, and safety with the Heartway Vita S12 mobility scooter. Its sleek and modern design is coupled with advanced features to enhance your mobility experience. The fully informative liquid crystal display console keeps you informed with essential details like speed, temperature, battery status, trip distance, and ODO. Enjoy the benefits of energy-efficient LED lighting that provides full brightness while consuming less power. Standing out from the rest, the Heartway S12 boasts Double A-arm suspension in the front and a single post shock absorber at the rear, ensuring a smooth ride even in the most challenging terrains. Powered by a 700W motor, it delivers ample torque for navigating demanding places with ease.
